♥ *Every Mom
is a Superhero!*

neno[®]

Neno means child. That's it. That's the clearest message we could send to the world with our products. They are dedicated for Parents, to make their daily life easier and to enjoy the time spent with their children. Neno is a Polish company that delivers products that meet your expectations of quality, that are visually attractive, practical and safe to use.

Neno products are mostly aimed at young Parents of children at the age of 0–3. Our mission and philosophy is to provide support and comfort for parents during that most beautiful, but also demanding stage of life. We are parents ourselves and know the perils of battle against colic, fever, runny noses or feeding problems, and how invaluable any amount of help is. And all of that for the sweetest reward of all – the smile of your child.

First Neno brand baby monitors, infrared thermometers and breast pumps were a smashing success. A community surrounding our products was born, composed of satisfied mothers. The process design and creation of Neno products is supported by midwives, physicians and nurses. We also cooperate with childbirth schools and lactation experts.

Meet the Neno bottle breast pumps

- 1 All Neno breast pumps are wireless, 2-phase or 3-phase.
- 2 The breast pump kit contains a 24 mm funnel (the most common womens' choice), made of soft, flexible silicone.
- 3 It is possible to match each breast pump with a silicone funnel in three sizes: 21 mm, 24 mm, 27 mm
- 4 The Neno breast shields are created from soft material which prevents chafing and irritation of the nipples.
- 5 The breast pump kit contains:
 - a bottle with a teat for babies from the first days of life,
 - a bottle stand so that the bottle can be set down comfortably with milk, without fear of spilling the milk,
 - stopper for convenient, clean storage of the funnels,
 - spare valves,
 - a bottle stopper to hygienically store the milk in the refrigerator.
- 6 Neno breast pumps have a special closed system, which means the highest standard of safety and hygiene for breast pumping.

Perfetto

Recommendation

OF THE POLISH SOCIETY OF MIDWIVES

Neno breast pumps have received an official recommendation from the Polish Association of Midwives. This proves that our products are not only appreciated by breastfeeding women, but also find recognition among experts. This is not the first such recommendation in the medical community. At the beginning of January, Anna Bulczak from the 'Zaufaj Położnej' portal has taken patronage of our products. This is a great honour for us and a motivation for further work.

What does the recommendation of the midwifery community provide?

Above all, it is proof that the recommended products are in line with current medical knowledge and safe for patients. Neno breast pumps are the answer to the most common lactation problems. The mechanisms used in Neno products – such as the third pumping phase – are designed to stimulate the breasts to produce even more milk. The third extraction phase of the Neno breast pumps combines elements of both the stimulation and active extraction phases. The solution introduced faithfully mimics a baby's natural sucking pattern, so that the glands are stimulated to work even harder.

In addition, the Neno breast pumps use 100 per cent media separation, which ensures complete hygiene and safety. The position of the diaphragm in Neno breast pumps provides a tight barrier between the bottle and the funnel and the tubes and motor of the device. This design protects the tubing and the motor of the breast pump from contact with the milk and keeps the breast milk hygienic and fresh. The closed system is used in both Neno single and Neno double breast pumps.

The Polish Midwifery Association is an association of midwives from all over Poland, whose tasks include raising the quality of midwifery care, as well as participating in the development of health programmes in the care of women and families. The association organises a number of educational campaigns and - like the Neno brand - supports natural breastfeeding. We are proud of the recommendation given and thank you for your trust.

nenoprimo

wireless single breast pump

It is a single electronic breast pump operating in two modes: stimulation and expression. Each of these modes works on 5 and 9 levels respectively. The breast pump is light and handy – you can easily put it into a bag. It delights with minimalism and simplicity. If you are not a supporter of the touch control panel, the breast pump has a classic button control system.

What will you
do with your
free hands?

Meet the Neno hands free breast pumps

- 1** *The new Freedom Series breast pumps have been designed for women who want comfort and independence. Lightweight and portable, they allow any mother to express breast milk freely and hands-free.*
- 2** *Instead of bottles, the hands-free breast pump has collection cups. The cup design means you don't have to hold it in your hand. Just place it in your nursing bra.*
- 3** *Expressing breast milk with a hands-free breast pump frees your hands so you can do other activities such as computer work, reading or light housework.*
- 4** *The milk collected in the cups can be easily poured directly into the bottle.*
- 5** *The breast pumps are supplied with ergonomic, anatomically shaped silicone breast shields, which can be adjusted in size with reducers.*
- 6** *Every unit in the Freedom Series operates in the 3rd phase. The use of this innovative mode is very helpful when lactation is starting and milk stasis occurs.*

nenop perla

3-phase hands free electronic breast pump

The Neno Perla is an innovative wireless hands-free breast pump that allows you to do other things while you are expressing milk. Its lightweight and small shell fits effortlessly into the cup of a nursing bra, leaving mum's hands completely free. The breast pump works on the basis of three phases with 9 levels of adjustment. It has a breast shaped anatomical breast shield that opens at 105 degrees and two reducers to reduce the breast shield size to 19mm and 22mm.

Included:

- Pumping station • USB-C cable • Silicone breast shield 26mm • Breast shield reducers 22mm i 19mm • 2× Membrane • 2× Valve • Milk container • Milk container cap • Breast pump connector • Velvet bag • 2× Breast pads • 1× Silicone brush • Manual

Specification:

- Stimulation phase: 9 levels (L1-L9) • Deep expression phase: 9 levels (L1-L9) • Mixed phase: 9 levels (L1-L9)
- Milk container capacity: 120ml • Battery: rechargeable li-ion 3.7V 1100 mAh • Charging time: approx. 2 hours
- Working time: up to 120 minutes • Material of milk container PPSU • Input: 5V 1A • Charging cable: USB-C

nenó[®] perla twin

two three-phase hands free electronic breast pump

The Neno Perla Twin is a double version of the hands-free breast pump designed for the convenience of modern mothers. It allows you to express from one or both breasts hands-free, making the process more efficient and less time consuming. Perla Twin works on a three-phase basis and offers an advanced 9-step adjustment. This allows users to adjust the operation of the device to suit their individual needs. In addition, the model is equipped with anatomical breast shields that adapt to the breast and reducers that reduce the circumference to 22 mm or 19 mm.

Included:

- 2× Pumping station
- 2× USB-C cable
- 2× Silicone breast shield 26mm
- 2× Breast shield reducers 22mm i 19mm

нено[®] velo

3-phase hands free double electronic breast pump

The Neno Velo is a product that is the answer to the needs of mothers who appreciate convenient and practical solutions. The hands-free breast pump consists of a set of collection cups connected to a compact pump. Efficient milk expression is made possible thanks to its three-phase action (with 8 levels of regulation) and to the breast shields, the size of which can be adjusted from 24 mm to 20 mm. The lanyards supplied in various lengths allow the breast pump to be hung around the neck or clipped to a trouser belt for invaluable comfort when pumping.

Included:

- 2× Pumping station
- 2× USB-C cable
- 2× Silicone breast shield 26mm
- 2× Breast shield reducers 22mm & 19mm

electronic breast pump

The Neno Vento Twin is a dual, lightweight, three-phase hands-free breast pump created for mums who value convenience. Powered by USB-C. It offers 9 levels of stimulation, pumping and mixed mode. Breast shield reducers (15–25 mm) ensure a perfect fit and the breast shield lid protects against dirt. Compact, quiet and effective – allowing you to pump more milk quickly and efficiently in less time.

Included:

• 2×Pumping station • 2×25 mm silicone breast shield with connector • 2×Cap • 2×Breast shield reducers 15/17/19/22mm • 4×Membrane • 4×Valve • 2×Milk container 150 ml • 4×Silicone stopper • Manual • 2×USB-C cable • 2×Nursing pad

Specifications:

• Stimulation phase: 9 levels (L1–L9) • Deep expression phase: 9 levels (L1–L9) • Mixed phase: 9 levels (L1–L9) • Milk container volume: 150 ml • Battery: rechargeable li-ion 3.7V 1100 mAh • Charging time: approx. 2 hours • Working time: up to 120 minutes • Input: 5V 1A • Charging cable: USB-C • Single pump dimensions: 70×63×48 mm • Single pump weight: 143g

3-phase hands free electronic breast pump with application

Neno Ovio is a wireless, three-phase shell breast pump designed for mothers who want to consciously control their lactation while valuing discretion and convenience. The connection with the dedicated Neno app allows for monitoring the amount of milk expressed, making feeding schedules easier to plan. The three working phases – stimulation, deep expression, and mixed – mimic the natural rhythm of a baby's suckling, ensuring complete comfort. The wireless design provides the freedom to use the pump anywhere and anytime.

Included:

- Pumping station • 24 mm Silicone breast shield • Breast shield reducers 17/19/21mm • Cap • 2× Membrane • 2× Valve • Milk container 180 ml • Milk container stand • USB-B-C cable • Manual • Velvet storage bag • 2× Nursing pad

Specification:

- Stimulation phase: 5 levels (L1-L5) • Deep expression phase: 5 levels (L1-L5) • Mixed phase: 5 levels (L1-L5) • Milk container volume: 180 ml • Battery: rechargeable li-ion 1200 mAh • Charging time: approx. 180 minutes • Working time: up to 180 minutes • Output: 5V 1A • Charging cable: USB-C • Pump dimensions: 75×75×37 mm • Pump weight: 112g • Set weight: 200g

3-phase hands free electronic breast pump with application

Designed for maximum convenience and time-saving, this wireless, three-phase shell breast pump with an app allows simultaneous milk expression from both breasts. The connection with the dedicated Neno app enables monitoring the amount and frequency of milk expressed, supporting conscious lactation management. The three working phases – stimulation, deep expression, and mixed – faithfully mimic the natural rhythm of a baby's suckling, ensuring comfort and effectiveness during each session. The wireless, discreet design gives mothers full freedom of movement and adapts to their daily routine.

Included:

- 2×Pumping station • 2×24 mm Silicone breast shield
- 2×Breast shield reducers 17/19/21mm • 2×Cap • 4×Membrane • 4×Valve • 2×Milk container 180 ml • 2×Milk container stand • 2×USB-C cable • Manual • Velvet storage bag • 2×Nursing pad

Find the perfect breast shield for your pump!

A well-fitted shield means greater comfort and more effective milk expression. Use the measuring guide included and follow these simple steps:

- Measure the diameter of your nipple at the base
- Match your size and choose the right shield or insert!

Mama, keep in mind:

- You can measure your nipple from the 32nd week of pregnancy
- Nipple size can change during lactation – it's worth checking again from time to time

nenovo

baby monitor with wireless receiver

The Neno Ivo is a premium electronic baby monitor designed for parents who want to keep an eye on their little ones with top quality equipment. The product stands out for its specifications, as it includes a receiver with a large display (5 inches, HD resolution) and is also integrated with the TUYA mobile app. Precise monitoring is possible thanks to a controllable head that moves vertically and horizontally. In addition to options such as pre-recorded lullabies and 4xzoom, the Nanny has a built-in sensor that detects any movement in the child's environment.

Included:

Camera • Receiver • Power Supply×2 • Flexible Mount • Mounting Kit • User Manual

Specification:

- Display: 5 inches
- Signal Range: up to 500 m (outdoors), up to 100 m (indoors)
- Camera Rotation Angle: 355° horizontally, 55° up and down
- Monitor Resolution: HD 1280×720 px
- Built-in Battery (Receiver): Li-Poly 3000 mAh
- Night Mode: Range up to 5 m

nenor[®]

aurora

electronic bouncer for children

The Neno Aurora is a product designed for use from the first day of a baby's life. The modern electronic rocker offers an alternative to natural rocking. It is based on a pendulum movement with 5 speed settings, which calms and soothes babies and ensures comfortable sleep. The main advantages of the rocker are its modifiable design (removable canopy and cover, removable toys and pillow), pre-programmed lullabies and the possibility of BT pairing with other devices.

Included:

- Rocker • Remote • Power Supply • Cable • Instructions

Specification:

- Input: 100–240V • Output: 5V/1A • Power: Battery or AC • Frequency: 50/60 Hz • BT 5.2 • 5 Rocking Levels • Adjustable Canopy • Mosquito Net • Plush Pendants • Built-in Lullabies • Suitable for children up to 9 kg

nenob nube

electronic bouncer for children

Neno Nube is an electric baby bouncer with BT connectivity. It plays your beloved music from your smartphone. Use the remote pilot included in the set to control the sound, swaying and rocking frequency. The swinging rocking motion resembles an infant's natural cuddling stimulating development. The stabilizing "ultrasafe" system and 5-point technology to support the baby guarantees safety and proper positioning of the infant. Baby bouncer has a removable top and mosquito net. It is a comfy solution for the parents and a relief from the daily carrying of the baby.

Included:

- Rocker • Remote • Instructions

Specification:

- Input: 100–240V • Output: 5V/1A
- Power: Battery or AC • Frequency: 50/60 Hz • 5 rocking levels

cherry kernel thermofor

Neno Cherry Kernel Thermofor is a unique product for babies, children and adults that can be used both hot and cold. It is safe for the skin as it is made from natural materials. Used as a warm compress on the breast during breastfeeding, it facilitates the flow of breast milk. On the other hand, the cooled thermofor helps with breast pumping and uterine contractions. It can relieve pain and muscle tension from colic, menstrual cramps, backache and headaches. It also works well as part of cold therapy to help reduce swelling, puffiness and post-traumatic pain.

Included:

- 1×Hot Water Bottle • Instruction Manual

Specification:

- Diameter: approx. 15 cm • Product Weight: approx. 180 g • Filling: cherry pits • Fabric: 100% cotton

nenop perse

medical device

hot and cold pack

The soft and gentle reusable gel compress Neno Perse is an effective way of relieving a variety of discomforts without irritating the nipple. Thanks to its extra large diameter, it covers a large area around the breast. Its flexible design means it fits perfectly and is comfortable to use. It effectively reduces swelling and inflammation, alleviating pain and providing relief. It is an essential aid for breastfeeding mothers and can also be used in combination with a breastpump. Applied to the breast, it helps to unblock the milk ducts and improve milk flow.

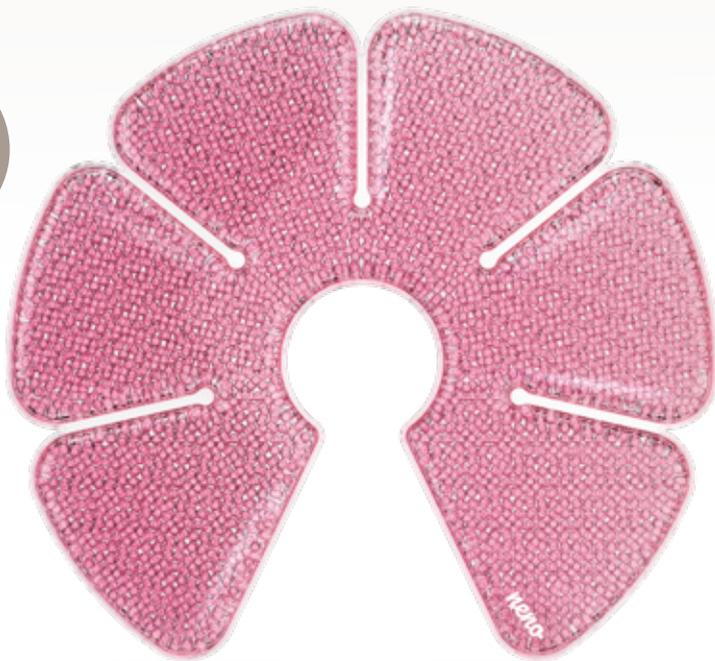

Included:

- 2 Gel Compresses • User Manual

Specification:

- Weight: 410 g • Dimensions: ø28 cm • Material: BPA, BPS, and Phthalate-free

nenovapore

medical device

portable mesh nebulizer

The cordless, quiet and compact nebuliser is ideal for the whole family. The medical device allows you to adjust the intensity of the nebulisation by selecting the speed (3 levels). Three masks and a mouthpiece are included, making it suitable for users of all ages. The nebuliser produces particles with an MMAD of less than 5µm and has a high respirable fraction of 65%, meaning that the medication is adequately absorbed in the lower airways. What's more, it's easy to use and light enough to be perfect for home or travel.

Included:

- Main Unit • Medication Container with Membrane
- Mask with Elastic Band×3 (for infants, children, adults) • Silicone Nebulizer Headband×2 • Mouthpiece • Micro USB Cable • Case • User Manual

Specification:

- Power Supply: DC 3.7 V • 750 mAh Lithium-ion Battery • Power Consumption: <4.0 W • MMAD Particle Size: <5 µm • Nebulization Rate: 0.15-0.90 ml/min (3 speed modes) • Medication Reservoir Capacity: 6 ml • Operating Modes: Constant or Variable (10-minute cycle) • Sound Level: ≤50 dB • Dimensions of the main unit with medication container and membrane: 7.25×6.75×5.05 cm • Weight: 72 g

нено[®] medic T08

medical device

contactless thermometer for
measuring temperature

The Neno Medic T08 non-contact forehead and ear thermometer is a device that is used to measure body temperature in a quick, convenient and hygienic way. The use of infrared technology allows for non-contact temperature measurement in different parts of the body, making it particularly convenient for children and people who do not like traditional contact thermometers.

Included:

- Thermometer • 2×AAA batteries • User Manual

Specification:

- Measurement range: 32.0–42.9°C (89.6–109.2°F) • Measurement accuracy: $\pm 0.2^{\circ}\text{C}$ in the 35.0–42.0°C range ($\pm 0.4^{\circ}\text{F}$ in the 95.0–107.6°F range); $\pm 0.3^{\circ}\text{C}$ ($\pm 0.5^{\circ}\text{F}$) in the ranges of 32.0–35°C and 42.0–42.9°C (89.6–95°F and 107.6–109.2°F) • Display accuracy: 0.1°C/0.1°F • Clinical repeatability: $\pm 0.3^{\circ}\text{C}/0.5^{\circ}\text{F}$ • Automatic power off: yes, after 8 seconds of inactivity • Measurement units: Celsius (°C) or Fahrenheit (°F) • Batteries: 2×AAA, DC3V, included • Weight: 93 g (with batteries) • Dimensions: 151×48×42 mm • Operating temperature: 10.0–40.0°C (50.0–104.0°F) • Storage temperature: -25.0–55.0°C (-13.0–131.0°F)

нено® medic T07

medical device

contactless thermometer for measuring temperature

Neno Medic T07 is a contactless thermometer with 5 modes for babies and adults. The magnetic cap allows precise measurement in the ear. You will measure body, water and air temperature with it. The easy-to-read LCD panel makes it easy to read the measurement. It is a medical product recommended by doctors and midwives. It can be used in hospitals, medical facilities, kindergartens and nurseries. It provides a range of temperature measurement from 22 to 43°C.

Included:

- Thermometer • Pouch • Instruction Manual

Specification:

- Measurement distance: 1.5–5cm
- Measurement accuracy: forehead $\pm 0.2^{\circ}\text{C}$ (36.0°C – 39.0°C) ($\pm 0.3^{\circ}\text{C}$ in other ranges); ear $\pm 0.2^{\circ}\text{C}$ in the ranges of 36 – 39°C , ($\pm 0.3^{\circ}\text{C}$ in the remaining ranges)
- object/room: $\pm 1^{\circ}\text{C}$
- Measurement location: Forehead, Ear
- Measurement units: Degrees Celsius ($^{\circ}\text{C}$) or degrees Fahrenheit ($^{\circ}\text{F}$)
- Measurement memory: 20 measurements
- Power supply: DC 3V AAA $\times 2$ batteries – included
- Automatic shut-off: After 10 seconds of inactivity
- Operating temperature: 10° – 40°C
- Storage temperature: from -20°C to 50°C
- Dimensions: 145.5 \times 45.4 \times 46.4 mm
- Weight: 72 g (without batteries)

nenob vio

ion dryer-curler

The 5-in-1 hair dryer and curling iron combines drying and styling in one device. Five attachments allow you to quickly dry, curl, add volume, smooth, and shape your hair. The ionization function eliminates frizz and adds shine, while the ultra-fast drying reduces styling time. Four temperature settings, a cool blow function, and memory settings provide full control, and the lightweight design and quiet operation make Vio the perfect companion for home and travel.

Included:

- Dryer • Smoothing Brush • 30mm Round Styling Brush • 30mm Curling Attachment with Adjustable Airflow Direction • Faster Drying Attachment • Concentrating Nozzle • Storage Bag • User Manual

Specification:

- Number of Negative Ions: 800 Million • Power Supply: 220-240V 50/60Hz • Power: 1200W • Cable Length: 1.7m • Motor Speed: 110,000 RPM • Dimensions: 204x41x41mm • Weight: 350g

nenob[®] algo

**advanced facial firming and contouring device
with EMS and RF technology**

Algo is a device that contours and firms the skin. It is equipped with two attachments – a flat one that emits red or yellow LED light and a diamond-shaped massaging one. Additionally, Algo features EMS and RF technology, and the device's operation can be customized to your needs with three working modes and two intensity levels. Furthermore, the automatic timer and memory function for previous settings make the device easier to use and more intuitive. Algo is not only lightweight and portable but also elegant, making it a device every woman will love.

Included:

- Massager • Storage Bag • Microfiber Cloth
- Type-C Cable • User Manual

Specification:

- Power Supply: 5V 0.75A • Power: 12W • Battery: 1200mAh • Timer: 6 min • Material: ABS + PC + PP + zinc alloy • Dimensions: 54.5×45.3×190 mm • Weight: 186g

nenob[®] mica

thermo-sonic facial cleansing brush

The exceptional Neno Beauty Mica sonic facial brush provides deep cleansing of the skin and prepares it for the next stages of skincare. It not only effectively removes impurities, sebum, and makeup residue, but also, thanks to the heating function, gently opens the pores, making it easier for active ingredients in cosmetics to work. The sonic vibrations stimulate microcirculation, improve skin elasticity, and give it a healthy glow. Mica is the perfect solution for those who want to enjoy clean, smooth, and radiant skin every day – without irritation or complicated rituals. With its ergonomic shape and soft silicone bristles, the brush is not only effective but also exceptionally pleasant to use.

Included:

- Toothbrush
- Magnetic case
- Type-C cable
- User manual

Specification:

- Power supply: 5V 0.35A
- Power: 7W
- Battery: 500mAh
- Waterproof: IPX7
- Timer: 2 minutes
- Material: ABS + PC + silicone
- Dimensions: 63×31×65 mm

nenob[®] alva

LED mask for facial skin therapy

The LED mask is the perfect solution for women who want to take care of themselves in the comfort of their own home, using modern and effective skincare technologies. Thanks to the use of four different LED light wavelengths, Alva helps reduce imperfections, even out skin tone, improve elasticity, and stimulate natural regenerative processes. It's a modern form of skincare that allows you to enjoy visible results in the comfort of your own home – quickly, comfortably, and effortlessly. The mask operates wirelessly, and the built-in timer helps better plan each session.

Included:

- LED Mask • Storage Bag • Type-C Cable
- User Manual

Specification:

- Power Supply: 5V 0.8A • Power: 6W
- Battery: 1000mAh • Timer: 10 min •

нено[®] luve

**multifunctional device for facial care
with microcurrents and skin rejuvenation technology**

Luve is a facial care device that combines multiple technologies in one. It is equipped with microcurrents, microelectric pulses, electroporation, EMS, vibrations, and different wavelengths of LED light. With four working modes and five intensity levels to choose from, the device can easily be adjusted to your needs and skin type. The technologies used in the device support the skin's condition, improving firmness, hydration, wrinkle smoothing, and radiance. The device also features a built-in timer, making daily use even easier. Additionally, Luve has a skin contact sensor that activates its function. This device is perfect for home use, serving as an indispensable element of a home spa.

Included:

- Massager
- Storage Bag
- Microfiber Cloth
- Type-C Cable
- User Manual

Specification:

nenob[®] naya

face massager with EMS technology
and thermotherapy function

Naya is a unique facial massager with two heads, combining two innovative technologies: EMS and thermotherapy. By using heat, the device not only warms the tissues, making it easier for nutrients from cosmetics to penetrate deeper layers of the skin, but also relaxes the muscles, making the massage pleasant and soothing. EMS improves the appearance of the skin, facial muscle tone, and increases skin elasticity. Naya offers five intensity levels, a memory function, and a built-in timer, making this accessory incredibly easy and intuitive to use.

Included:

- Massager • Stand • Microfiber Cloth • Type-C Cable • User Manual

Specification:

- Power Supply: 5V 0.7A • Power: 6W
- Battery: 1000mAh • Timer: 6min
