LARGE 3.2 DISPLAY

Neno Berkano baby monitor's receiver is equipped with a clear display with a diagonal 3.2 inches, so you will not miss anything.

STANDBY MODE VOX

Press the MENU button to enter VOX mode. In this mode, the screen automatically turns off to save power. The monitor reactivates automatically when noise is detected in the child's room.

VOX

TWO-WAY COMMUNICATION

The Nanny has a two-way communication system, so you can not only hear the noises from your baby's room, but you can also talk to your baby in another room.

300°

MOVABLE HEAD

Meet Neno Berkano electronic nanny with a moving head that allows you to observe your baby 300 degrees horizontally and 50 degrees vertically. You can control the camera head yourself from the receiver. With just a few clicks you can change the position of the camera lens.

20 °C

MEASURING THE TEMPERATURE

The Neno Berkano video nanny receiver has a temperature sensor so you can monitor your little one's thermal comfort.

BUILT-IN LULLABIES

The nanny video also allows you to play lullabies to the baby. The device has up to 8 built-in melodies that will help your baby fall asleep peacefully.

LARGE OPERATING RANGE

The range of the video nanny signal is up to 50 meters indoors and up to 260 meters outdoors. All for the greater comfort and safety of your baby.

NIGHT MODE

The Neno Berkano Video Nanny allows you to observe your sleeping baby in total darkness. All thanks to built-in IR diodes.

CONTROL THE HEAD'S ROTATION

The Neno Berkano video nanny allows you control the camera head yourself from the receiver. Simply press the rotation button on the camera and then use the arrows to change the viewing angle of the lens.

ALARM FUNCTION

The Neno Berkano has a built-in alarm function. You can set the time when the receiver will wake you up to check if your baby is still sleeping.

CONSTANT MONITORING

Neno Berkano video nanny is not only an electric nanny. The device can be also used for monitoring the elderly people, but also to observe the interior of apartments.

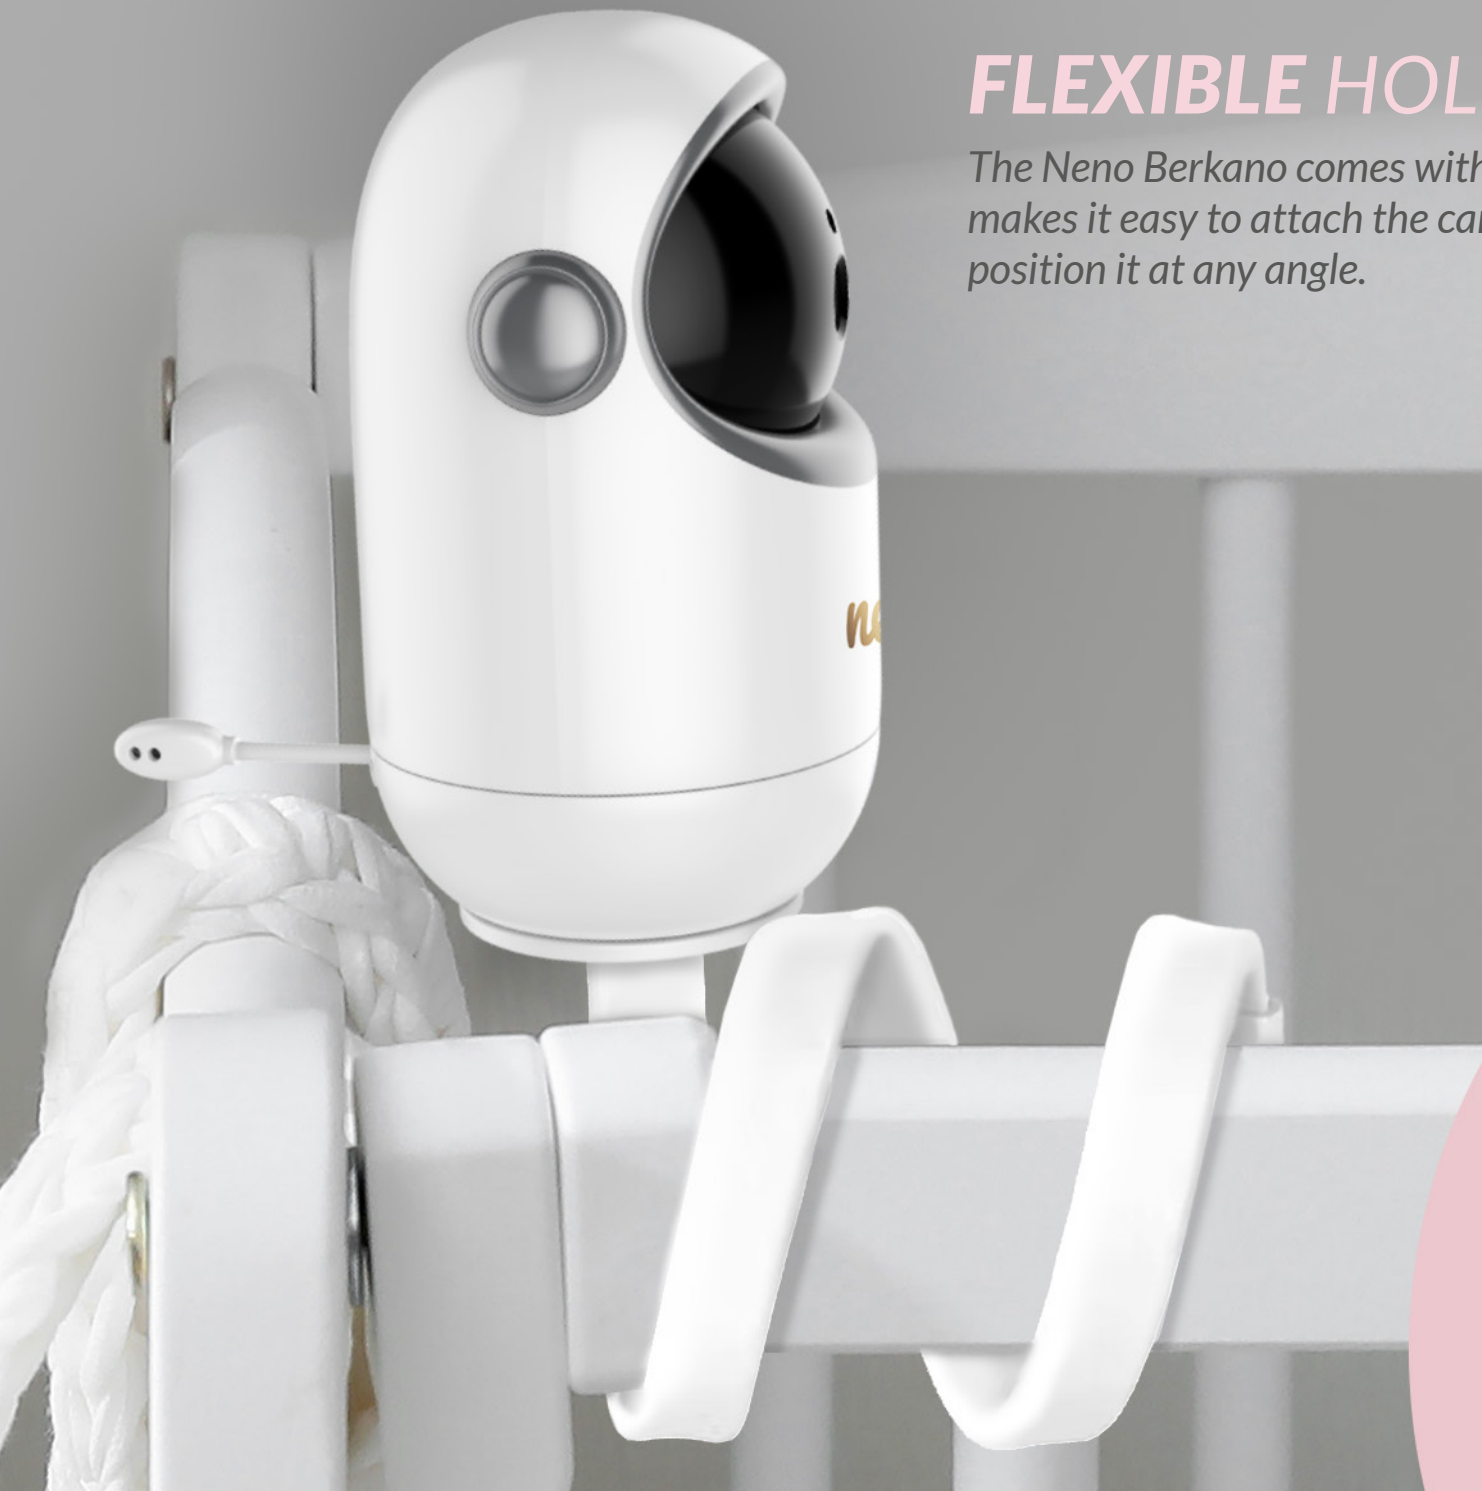

RELIABLE ASSEMBLY

We have taken care not only for the functionality of the baby monitor, but also for the convenience of use. A special mounting system, located underneath the device, allows you to attach the nanny to the wall. So you can watch your baby from any angle - depending on how you decide to mount the device.

FLEXIBLE HOLDER

The Neno Berkano comes with a long, sturdy stick. The flexible holder makes it easy to attach the camera to the handrail of the cot and position it at any angle.
