For babies from the head-holding stage

3 colours to choose from

*With its wide range of colours,
the bouncer is a stylish addition to
your home or flat. Choose the one
that best suits your interior!*

elegant
anthracite

Created for lovers of simplicity and elegance, the Neno Nesso perfectly combines functionality with minimalist style. It is timeless, beautiful and blends in perfectly with any interior.

*sage
green*

The soft colours of the bouncer go well with the pastel accessories to create a friendly, calming space that soothes the baby and pleases the parent's eye.

*warm
beige*

Imagine the sun streaming through the window and the Neno Nesso subtly illuminating the room. It is the perfect choice for large, bright interiors.

3-stage construction

The backrest can be easily adjusted in three positions – for sleeping, playing and watching. So your little one can always find a comfortable position, and you can rest assured they are safe and happy.

choose cotton over polyester

The Neno Nesso is one of the few models on the market with a cotton cover, which is comfortable and safe for your baby's delicate skin.

Natural cotton is soft, pleasant to the touch and less likely to cause allergic reactions than synthetic materials such as polyester.

Its thermoregulatory properties protect against overheating and irritation, and as a biodegradable material it is also environmentally friendly.

*rocking with your
child's movements*

The bouncer follows your baby's rhythm. The gentle rocking is soothing and reassuring, reminiscent of the warmth of a parent's arms. Let your child discover the joy of natural movement!

safe 3-point *belt system*

Safety is our number one priority. We have equipped the bouncer with strong 3-point belts to prevent your little one from falling out of the seat.

non-slip base

The Neno Nesso remains stable on any surface thanks to the non-slip base, which protects the floor from scratches and ensures that the armchair does not slide or tip over.

scandinavian *design*

Inspired by Scandinavian style, the Neno Nesso is more than just a bouncer. It is also a decorative element that adds character to an interior. Subtle lines and natural colours create a peaceful environment for your child.

*remove
the toys
themselves*

*remove
the whole
headband*

removable *toys*

The colourful, soft toys attract your child's attention and help develop their senses. When it's time for a nap, the toys can be easily removed to create a less distracting space.

mobile and lightweight

Moving the bed from room to room is fun! The lightweight design makes it easy to transport, so your little one can stay close by, no matter what you're doing.

*detach
the velcro
at the bottom
of the bouncer*

*pull
the fabric
off the frame*

easy
to carry

Travel without limits! The Neno Nesso folds up easily, and its compact size means you can stow it in the boot of your car. So your baby always has a place to rest, wherever you are!

The bag for the Neno Nesso is not part of the kit. It can be purchased separately.

ergonomic design

Ensure your little one's healthy development! The shape of the bouncer supports your child's natural posture, which is crucial for their comfort and development, whatever position they are in.

keep an eye on your baby

Keep your little one safe and close to you at all times! The bouncer lets you keep an eye on your baby wherever you are: in the kitchen, living room or bedroom.
