Neno Ampio turns everyday challenges into pleasure. The 3-in-1 function makes it grow with your toddler. It serves as a potty, potty seat and footrest, so your child can use it from age 1 to 6. Plus, it saves space and eliminates the need to buy separate accessories. With its foldable design and easy cleaning, it brings order and convenience to your home.

Comfortable toilet use

Neno Ampio pieces are designed to make it as easy as possible for several-year-olds to use the toilet. The comfortable footrest eliminates the problem of hanging feet, so at the same time it also affects the maintenance of proper posture.

Thoughtful design

Sturdy lid helps maintain hygiene during daily use.

The high and comfortable backrest and the soft seat together form a piece that can be part of a potty or a separate potty seat.

Spacious container to facilitate comfortable handling of needs.

A footrest that allows the child to get to the sink or rest his legs while sitting on the toilet. It also acts as a storage compartment that holds all the parts of the Neno Ampio when folded.

See what our multifunctional potty is made of! Durable materials, ergonomic shapes and solid workmanship guarantee that Neno Ampio will serve you for many years.

A young child is sitting on a white potty seat on a white carpet. The child is wearing a white t-shirt and blue shorts. A small white dog is sitting next to the child, looking towards the camera. The background is a bright, out-of-focus room.

Comfortable for the toddler

Imagine your child's smile as he/she sits on the soft potty seat. It's made of soft material, so it provides great comfort during the demanding learning process of using the potty or toilet.
