BABY FOOD BLENDER
WITH STEAMING FUNCTIONS

healthy &
nutritious
MEALS

Clean kitchen

Our blender is designed with the thought of moms that value tidiness and comfort. You don't need to prepare ingredients and steam food in separate pots anymore. Neno Cibo will do it all for you, and save you cleaning time.

Healthy baby meal

Organic, quick and healthy baby meal as an alternative to the jars you buy. Neno Cibo is for you if you want your child to eat healthy soups rich in nutrients that you prepare yourself at an express pace. An additional advantage is the freshness and taste of the meals compared to the jars you buy. Cibo helps you to save money in comparison with ready-made, shop-based dishes. It also gives you the possibility to gradually introduce new vegetables and fruits to your kid so that in the event of allergies or intolerances you will know what to eliminate from your child's diet.

ECO
Zero
Waste

Chopping

Neno Cibo is equipped with a chopping function, thanks to which you can process big chunks of food in the blender. All you need to do is switch on the chopping function, and the blender will quickly and precisely chop big chunks of food.

Blending

Neno Cibo has mixing and pulsing functions, thanks to which you can set the blending power according to your preference and choose pulse or mixing functions, so you can successfully blend and mix food to the consistency of your choice.

Steaming

Our blender is equipped with a steam cooking function, which allows you to cook previously chopped and prepared food, and save all of the valuable nutrients.

Healthy meals

Our product is designed with the thought of your children's health and well-being and for the parents who want to prepare healthy and nutritious meals that help support your child's healthy growth.

Time saver

All of the built-in functions of chopping, steaming and multifunctional blending options are designed to save your valuable time on food preparation, without losing the quality and nutritional value.

Comfortable screen

Neno Cibo has a big and comfortable screen with a control panel and buttons that make the blender easy and intuitive to use.

Take it anywhere

Neno Cibo is lightweight and portable with a comfortable design, thanks to which you can take it with you on any trip that you desire.

Stable base

The device sits on a hard stable base, with supporting legs, so you do not need to worry about the device falling or shaking. Even when working on the highest settings, the secure base guarantees safe use in any setting.

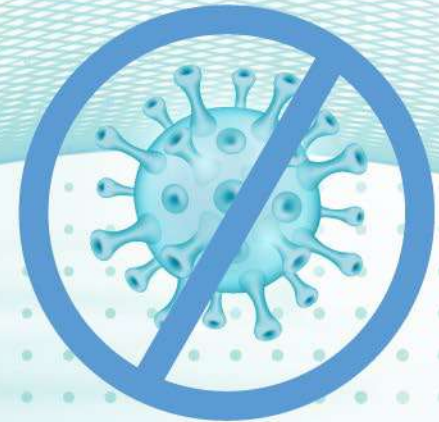

Easy as child's play

Our blender is designed specially with the thought of functionality and to save time. A simple structure and a big, easy to navigate screen make using the device easy as child's play.

Automatic cleaning

Our product is equipped with an automatic cleaning function, which will save your time and effort. All you need to do is pour water into the device, press the automatic clean button and pour the water out when it is done.
