

# nenno<sup>®</sup> Calme

wet wipes warmer

fast heating

3 heating modes

lockable lid for easy  
removal of wipes

drawer for  
dry heating

45°C - 55°C

## *Why do you need a wipe warmer?*

The Neno Calme wipe warmer makes every nappy change more comfortable. The warm wipes prevent the occurrence of thermal shock, which causes stress and great discomfort for the baby. They protect his delicate skin from sudden temperature changes, providing soothing, calm and a sense of security every day.

## *3 heating modes*

You can adjust the heating temperature to suit your current needs at any time. The appliance offers three levels: 45°C, 50°C and 55°C. On warmer days, gentle heating will work, while in winter, when your child feels the difference in temperature, the higher mode will provide a soothing and pleasant experience.

## *Easy wipes removal*

When caring, every detail counts. The special lid of the Neno Calme has been designed so that the wipes can be pulled out without the risk of accidentally removing the entire pack. This detail provides really great convenience, especially when you only have one hand free.

# *Ideally suited to any interior*

With its elegant and subtle color, Neno Calme blends in perfectly with the décor of any room. Its versatile design fits in with the latest design trends. Therefore, it is both a tasteful and timeless decorative element that suits a child's room, kitchen or living room alike.

## *Silent and discreet heating*

The Neno Calme heats almost silently, which is especially important when your little one has just fallen asleep. Its quiet operation means you can focus on caring for your baby without disturbing his sleep or the peace and quiet of your household.

## *Heating up quickly*

Every parent knows how important it is to be able to act quickly. The Neno Calme warmer works at lightning speed to get dry and wet wipes to the perfect temperature in no time.

## *Protection against drying out*

The clever design of the warmer keeps each wipe fresh and moist for a long time with low power consumption.

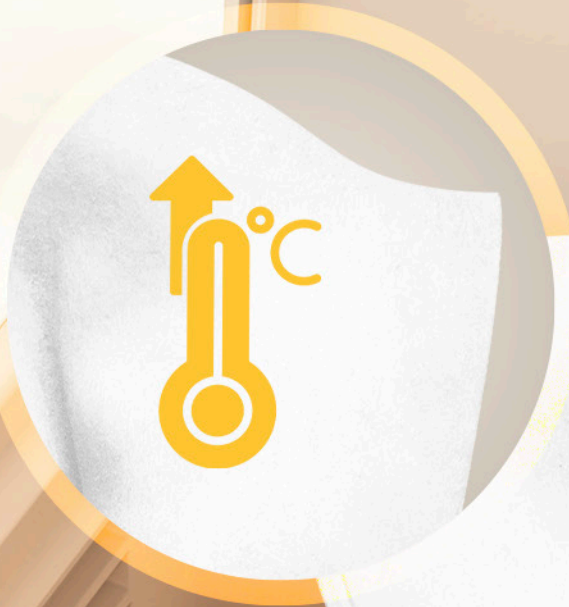

## *Practical drawer*

A built-in shelf allows other useful accessories such as compresses, dry wipes and children's socks to be heated. For parents who are looking for versatile solutions, this feature could prove to be a hit!

## *Always warm wipes*

The magnetic lid with gasket helps to minimize heat loss, meaning that the wipes are kept at the optimum temperature throughout the unit's operation. This makes it so you can use them whenever you need them.

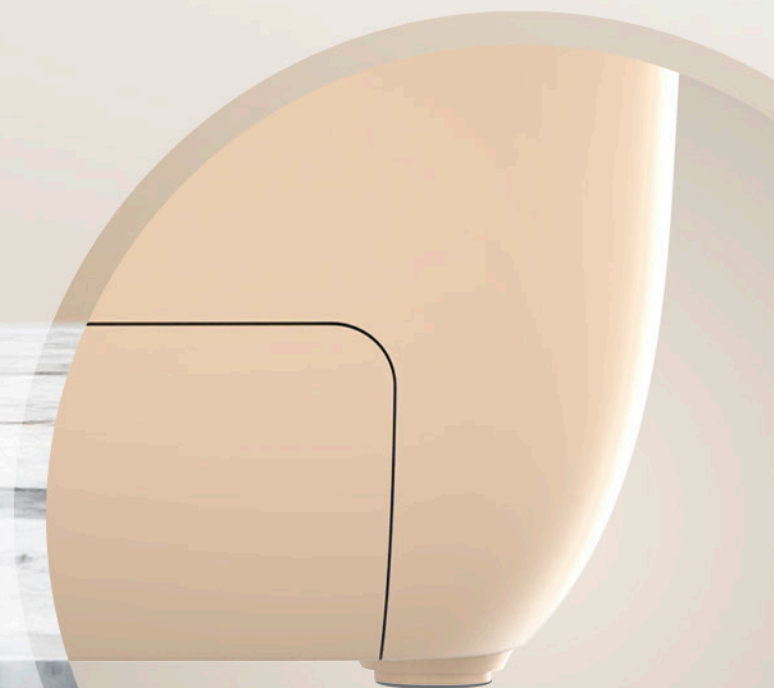

## *Easy operation*

The Neno Calme touch panel is easy to use. The protection against accidental switching on and off means you don't have to worry about uncontrolled changes. Simply hold down the button for a second to activate the device.

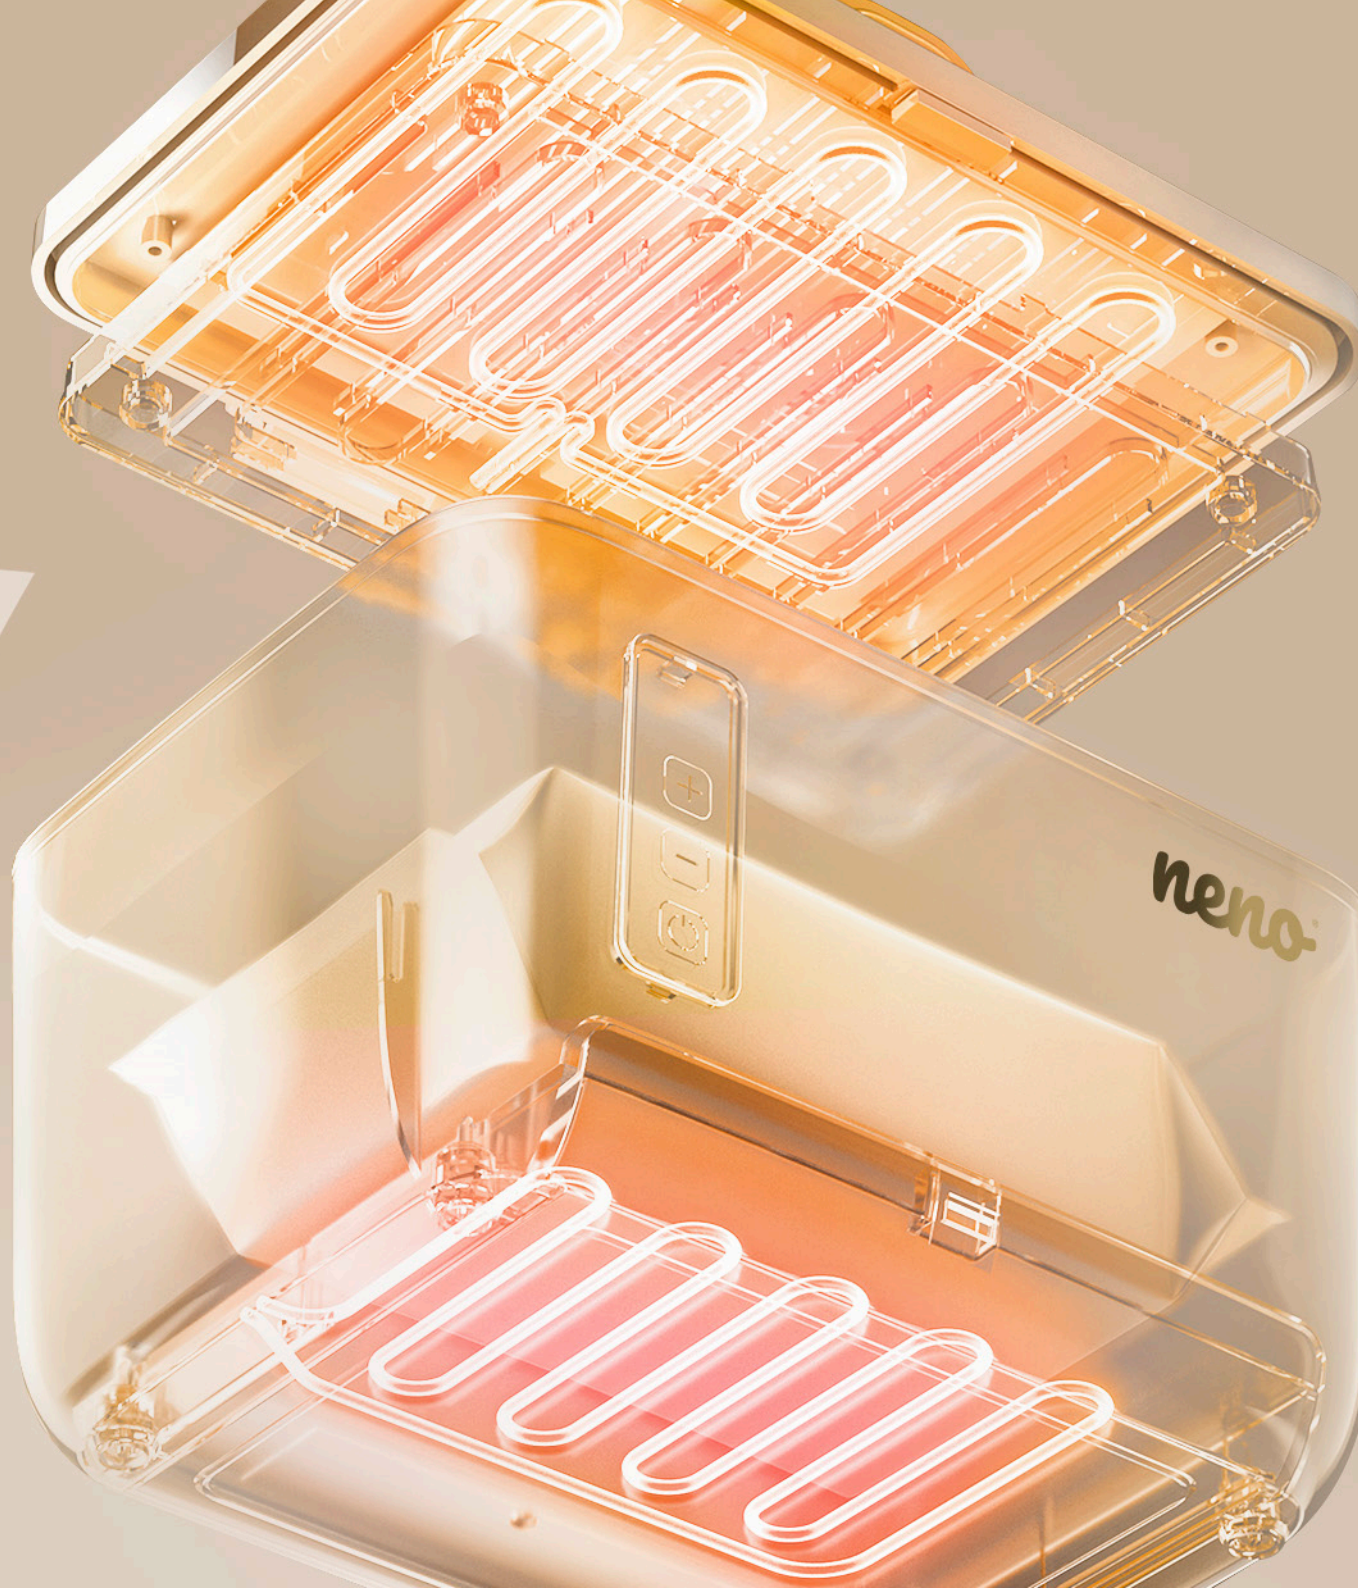

## *Non-slip base*

We have equipped the warmer with a non-slip base that prevents it from sliding on various surfaces, so you can be sure it will stay in place.

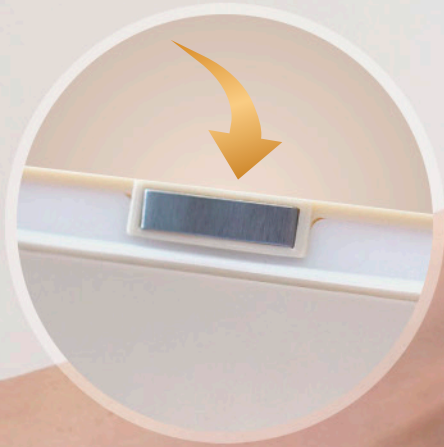

## *Double-sided wipe heating*

Our unit heats the wipes from both the top and the bottom, ensuring that the energy is evenly distributed throughout. This ensures that the wipes are always at the perfect temperature – moist, fresh and ready to use.

# *Cover to prevent heat loss*

The magnetic lid with gasket minimizes heat loss. When it is closed, the heat stays inside and the wipes retain their optimum temperature for longer. It's a simple and effective way to be efficient and convenient in one.

## *Easy installation*

The heater is equipped with a long cable (1.7m). This means that, regardless of the layout of your room or bathroom, you can use the device in a convenient location.
