medical
product

A woman with blonde hair, wearing a white tank top, is shown from the back. She is applying a large, clear, gel-filled hot and cold pack to her right shoulder. Her left hand is resting on her shoulder. The pack is filled with small, pink, spherical beads. The brand name 'neno' is visible on the pack. The background is a soft, light pink and white gradient.

Medical product

The Neno Perse hot and cold pack is a medical product that has been created with the comfort and well-being of its users in mind. It will help you take care of your body consciously and with care. Remember to always use it in accordance with the instructions or label, because your safety comes first!

neno care series

Large size

Neno Perse covers large areas of the body, providing fast relief where it is really needed. Its size allows it to adapt to different areas - from the abdomen to the back. It is the only medical product on the market that is so large and can be used for both postnatal care and the treatment of bruises and swelling.

neno care series

A close-up photograph of a person's back. A hand is holding a rectangular, pink, gel-filled pack against the skin. The pack has a textured surface of small bubbles. The background is a soft, out-of-focus light pink and white. The overall mood is gentle and soothing.

Gentle on the skin

The material used to make the hot and cold pack is extremely soft and gentle, so you can use it on even the most sensitive parts of your body. It does not cause irritation, so you do not have to worry about the condition of your skin.

nenocare series

Heat therapy

Take care of your breasts with the natural power of heat! Compress therapy is a real help in every mother's daily life. The warm compress stimulates milk flow, unblocks the milk ducts and relieves discomfort during pumping and breastfeeding.

nenocare series

Cold therapy

If you are struggling with swollen breasts or pain caused by mastitis, cold therapy can provide immediate relief. The Neno Perse hot and cold pack reduces swelling and inflammation and also helps the uterus to contract after childbirth. You can also use it for caesarean wounds or perineal ulcers.

Ergonomic design

Shape matters! Thanks to its ergonomic, flexible design, the compress conforms to your body. It can be folded, shaped and adjusted to fit exactly where you need it.

nenocare series

Reusable

The cooling and heating pack is a purchase that will serve you for many years to come. Simply wash it after each use and it is ready to use again.

Strong

Niezależnie od tego, jak często korzystasz z kompresu, możesz mieć pewność, że wytrzyma próbę czasu. Jest to solidny wyrób medyczny, który zachowa swoją żywotność nawet przy intensywnym użytkowaniu.

Two heating methods

Heat a compress in the microwave or in a water bath to provide relief when your body needs it. Whichever method you choose, you can be sure it will work quickly and effectively.

nenocare series

Two cooling options

Depending on your needs, you can cool the compress either in the fridge or in the freezer. This gives you full control over the cooling intensity, so you can choose the option that best suits your condition.

neno care series

Flexible after freezing

The frozen compress remains flexible and easy to shape, so it can be precisely tailored to the area that needs cooling. This ensures complete coverage, whatever the shape or size of the area to be treated.

nenocare series

Double the benefits

The kit contains two Neno Perse cooling gel compresses that can be applied simultaneously to different parts of the body. This allows you to effectively relieve pain and tension in two areas at once.

нено care series

Universal use

The cooling and warming gel compress is ideal for bruises, swelling, sore muscles or headaches. It can also be used on the forehead for fevers and on the stomach during menstruation.
