Gentle comfort you deserve

After childbirth, the skin becomes exceptionally sensitive, so it's important to choose fabric that feels soft and soothing. Neno Sempre reusable panties are made from a breathable, skin-friendly material that provides ultimate comfort without causing irritation.

neno care series

Excellent breathability

Proper airflow is essential when the body is recovering after childbirth. The airy mesh structure of Neno Sempre ensures optimal ventilation, keeping the skin fresh and dry.

нено care series

Support after a c-section

Healing after a c-section requires gentle support. Neno Sempre provides light abdominal coverage without pressing on or irritating the wound, allowing you to focus on recovery and caring for your baby.

neno care series

Durable material

Postpartum recovery brings many changes, both in the body and daily routine. Reliable underwear is essential. Neno Sempre retains its shape even after multiple washes, ensuring long-term durability.

Freedom of movement

Tight underwear can cause discomfort and restrict movement. Neno Sempre adapts to your body while staying securely in place without excessive compression. Enjoy unrestricted movement and all-day comfort.

neno care series

Size M or L

Flexible fabric

Your body goes through significant changes after childbirth, and Neno Sempre adjusts with you. The flexible fabric adapts to your body without causing discomfort.

нено care series

Large mesh openings in the fabric allow the skin to breathe, preventing excessive sweating and unpleasant odors. A practical solution for maximum comfort and hygiene.

Mesh structure

Other producers:

neno care series

*Keeps maternity
pads in place*

Proper fit prevents shifting, ensuring postpartum pads stay securely positioned for reliable protection.

nenocare series

*Reusable
and practical*

During the postpartum period, practical solutions make all the difference. Neno Sempre can be hand-washed and reused, making them an eco-friendly and cost-effective choice.

neno care series

High waist design

The elevated cut ensures a secure fit while covering the abdomen-especially important after a c-section. The design also prevents rolling and slipping for a better fit.
