THE AIDE OF ALL MOTHERS

A newborn child brings not only joy, but a lot of changes as well. To stay healthy, young mothers have to express breast milk regularly. The Neno Uno breast pump allows milk expression at any moment, even when your child is asleep or far away from you. The touchscreen interface is easy and intuitive in use.

A close-up photograph of a woman's torso. She is wearing a white, textured knit cardigan over a light pink bra. She is holding a green Neno Uno breast pump against her chest. The pump is connected to a clear plastic collection bottle. The brand name 'neno' is visible on the bottle. The background is a soft, out-of-focus beige color.

HANDY AND PORTABLE

Every working mother will appreciate Neno Uno. The breast pump is small and has a built-in battery, so it can be taken with you and used throughout the day.

SMART BREAST PUMP

You can adjust Neno Uno to your needs. The device has 6 stimulation levels and 9 levels of milk expression. The breast pump remembers the last settings used.

**UP TO 2 HOURS
OF WORK**

1400 mAh

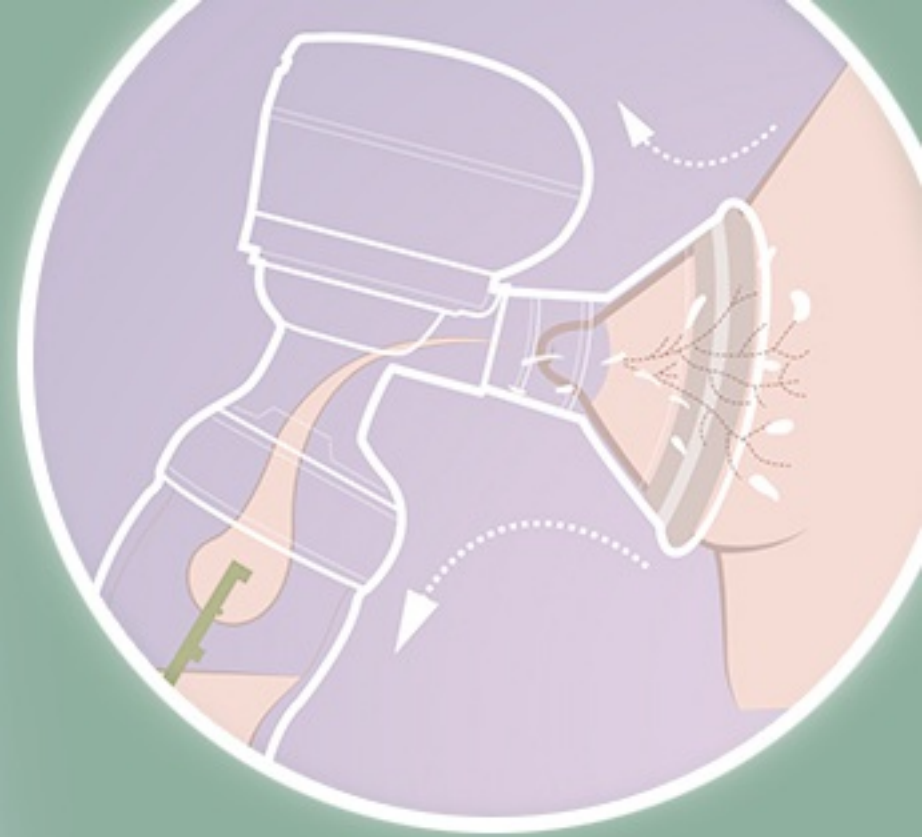

CAPACIOUS BATTERY

Neno Uno has a built-in lithium-ion battery that supports up to 2 hours of work, or four full 30-minute cycles of milk expression.

COMFORT AND HYGIENE

Thanks to the breast pump's special design, the expressed milk does not flow back, keeping it fresh and protecting the young mom's health.

EASY TO USE

Neno Uno is fully wireless. Just press the device to your breast and turn the pump on to start expressing milk. The device will automatically switch modes and turn itself off after 30 minutes of use.

HIGH-CLASS SILICONE

The breast shield of the device is made out of Japanese silicone that does not irritate your skin, reduces the feeling of discomfort and enhances the milk flow. No part of the breast pump contains BPA, making it safe to use.

ALWAYS READY

The Neno Uno breast pump is so easy to use that you can take it out whenever you need. You can both feed your child at home and express milk with the breast pump when at work.

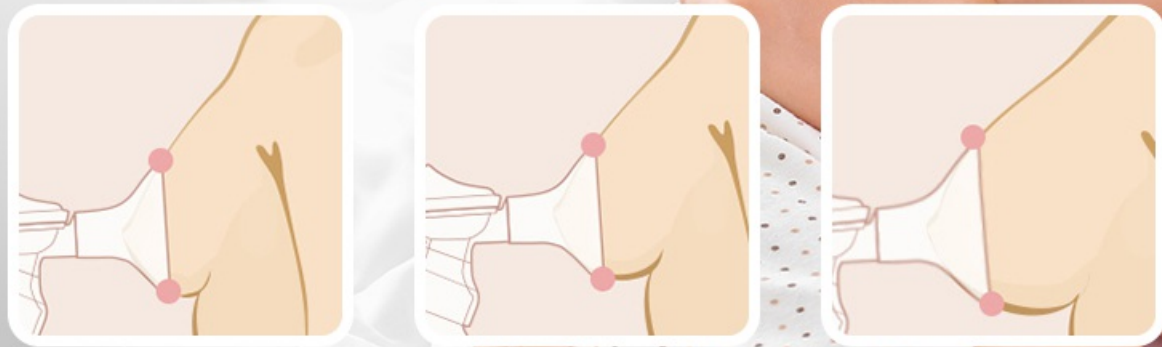

The set also includes a milk bottle with a teat, letting you use the device right out of the box.

**Bottle
included**

UNIVERSAL

The silicone breast shield of the Neno Uno pump was designed to fit any breast size.

EASY STERILIZATION

Parts of the Neno Uno breast pump have to be cleaned and sterilized regularly. You can use a steam sterilizer, also used to disinfect baby bottles.

TECHNICAL SPECIFICATION

Model: *nenó Uno*

Weight:	300g
Dimensions:	81x66x62 mm
Battery capacity and type:	3.7v 1400 mAh Li-Ion
Charging port:	USB-C
Modes of operation:	6 stimulation levels, 9 expression levels
