Every Mom
is a Superhero!

versatile use

One bottle, many possibilities. Perfect after childbirth, during menstruation, in case of intimate infections, or whenever you don't have access to a bidet or shower.

neno[®] care series 

after natural
childbirth

after cesarean
section

during
menstruation

after gynecological
operation

during infection
of the intimate areas

when having
hemorrhoids

when access to
the bathroom is turned

nenocare series

ergonomic
and easy to use

The bottle is designed with your comfort in mind. It fits comfortably in your hand, doesn't slip, and allows for easy maneuvering, no matter what position you're in. Just squeeze it gently, and a soft stream of water will go exactly where it's needed. You don't have to learn or adjust anything — you grab the Senso and instantly know what to do.

neno[®] care series

500 ml

large
capacity

The bottle holds up to 500 ml of water — enough to ensure complete intimate hygiene without stopping to refill. This gives you peace of mind and comfort, especially when it matters most — after childbirth, during your period, or when mobility is limited.

neno[®] care series

compact and portable

The Neno Senso bottle easily fits into a bag or drawer. Its telescopic nozzle folds neatly inside, so the whole product takes up very little space. A storage pouch is included to make transport and storage even easier. That means you can always have it with you.

long

and telescopic neck

The ergonomic nozzle helps you direct the water stream precisely where it's needed, without having to adopt uncomfortable positions. Thanks to its length and the ability to tuck it away after use, the bottle combines comfort, functionality, and compact form.

adjustable water pressure

The Neno Senso bottle responds to how hard you squeeze it – the firmer the grip, the stronger the water stream. This simple feature helps you easily adjust the intensity to your comfort and skin sensitivity, ensuring hygienic care without irritation.
