aesthetically pleasing
and practical

A newborn baby is sleeping peacefully in a Neno Monti cocoon, which is a soft, white, oval-shaped nest. The baby is wearing a white knit hat and a white long-sleeved onesie. The cocoon is placed on a light-colored, quilted surface, possibly a bed or a sofa. A white cloth is tied around the front of the cocoon, creating a bow. The background is a warm, orange-toned wall.

Sense of security and warmth

The first days of a baby's life outside its mother's belly require special care to make it feel secure. The Neno Monti was created precisely for this purpose. The wrapping, narrow space of the cocoon gives the baby comfort and limits too much freedom of movement. It prevents the baby from rolling off the sofa and protects from the rungs of the cot. Outside the home, it can be used as an extra layer in the pram to absorb shocks.

Cotton velour cover

The Neno Monti cocoon is made entirely of soft cotton velour, which provides comfort for the baby when lying down and sleeping. The soft feel of the material means that the parent also feels pleasure when carrying or handling the cocoon.

Practical and safe

The Neno Monti is a multifunctional cocoon that allows the baby to stay safely close to the parent - in the bedroom, on the sofa or on the carpet. It provides your baby with plenty of space and supports baby's healthy development. The cocoon can be washed, making it easy to use on a daily basis.

High quality

Neno Monti is a baby cocoon created with safety, comfort and aesthetics in mind. Being handmade in Poland guarantees attention to every detail, and the OEKO-TEX Standard 100 certificate confirms that the materials are completely safe for the baby. Uniform colours and a decorative bow give it a unique charm.

SPECIFICATION
