# *Neno Fiore* *Support for Recovery*

Neno Fiore are hydrogel breast pads with lanolin, designed for the comfort of every breastfeeding mom. Their soothing and cooling properties bring relief to sore nipples, supporting healing and protecting delicate skin from irritation.

# *The Soothing Power of Lanolin for Irritated Skin*

neno care series

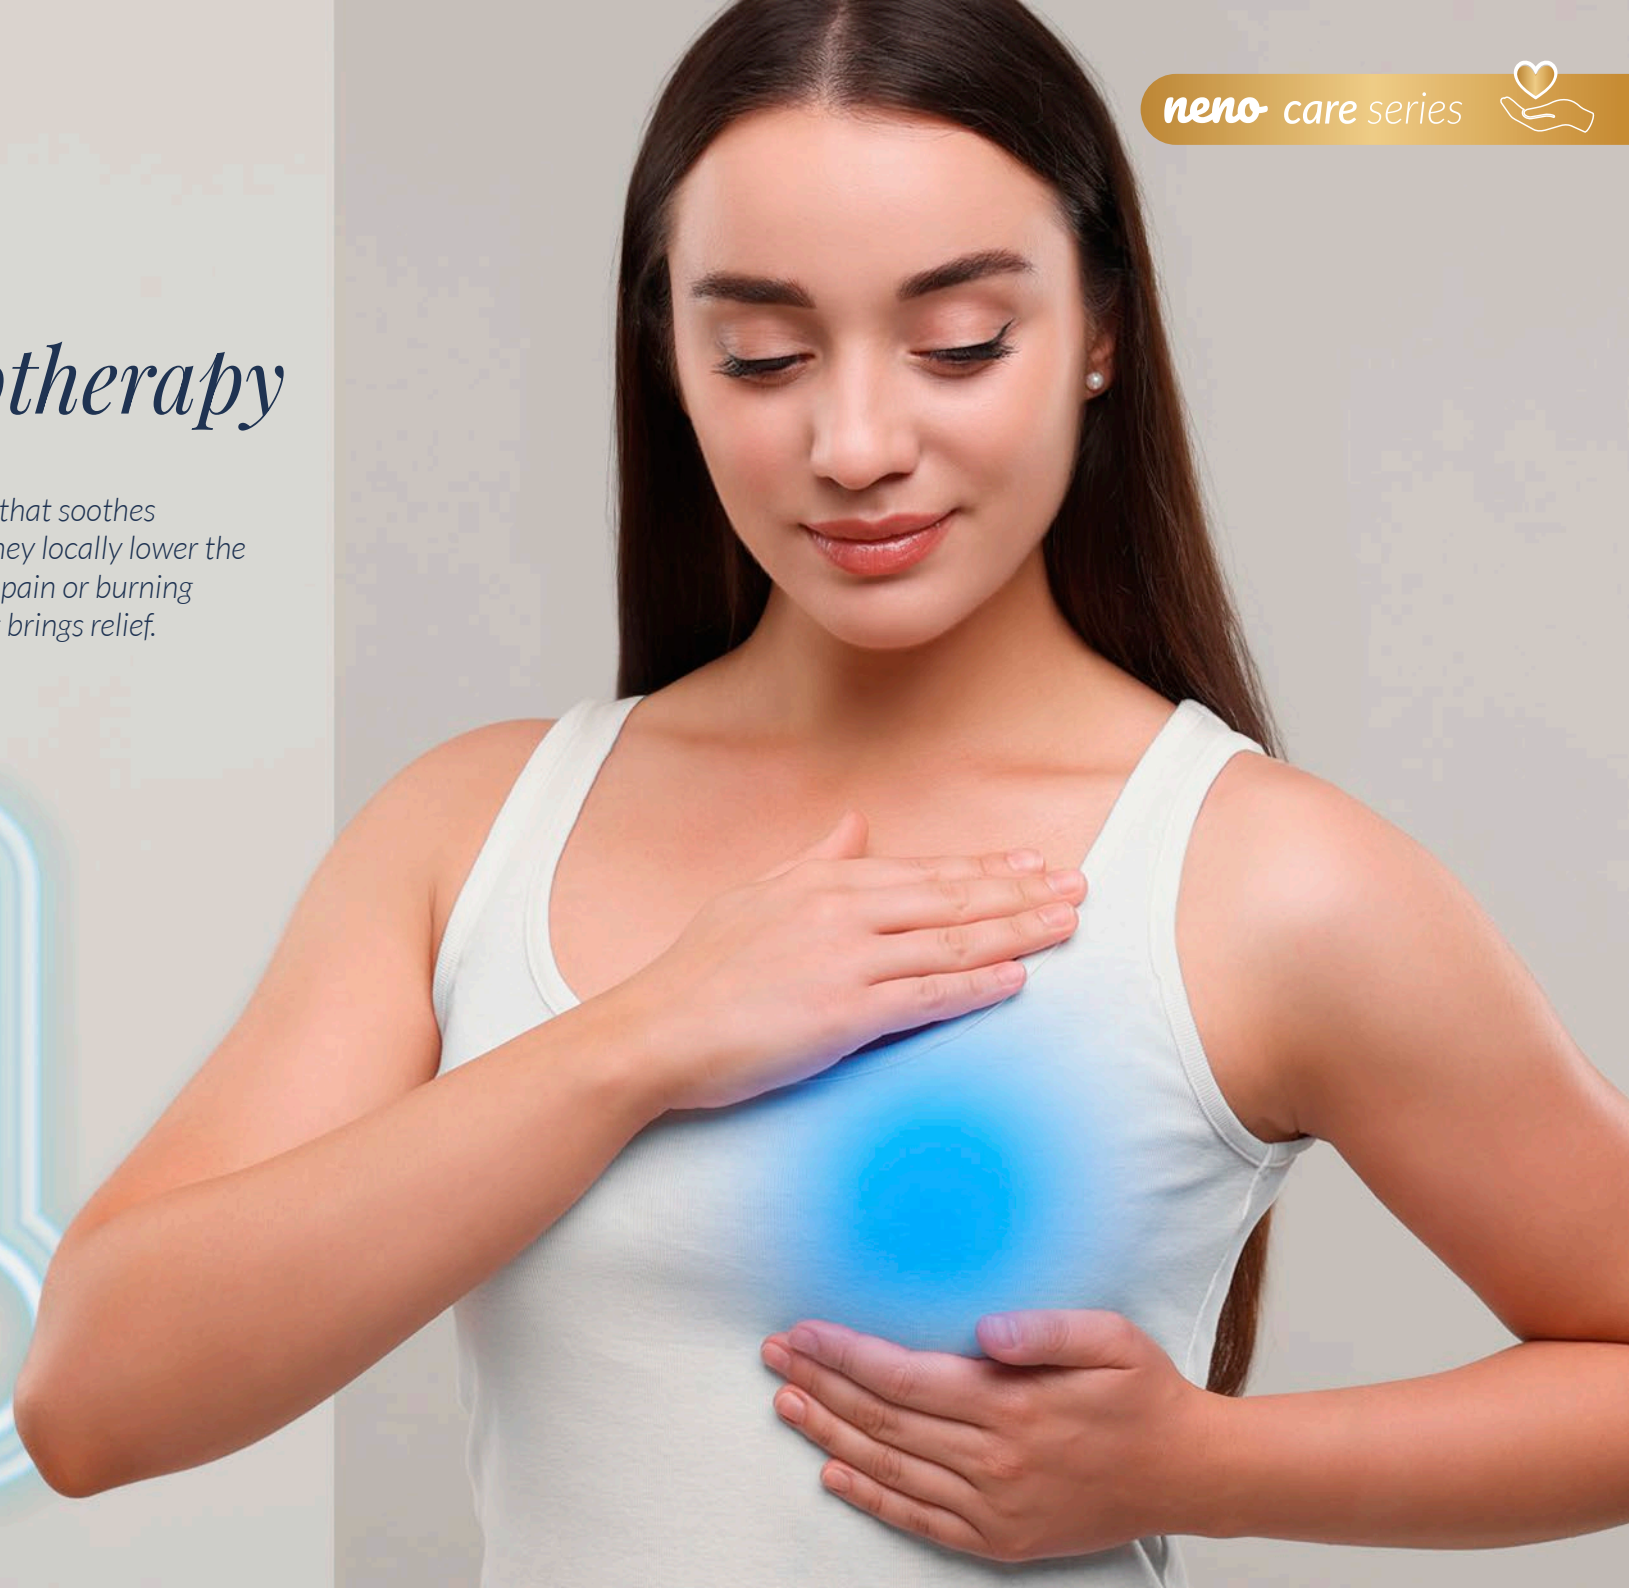

*The lanolin in Neno Fiore deeply moisturizes the sensitive skin of the nipples. It's a gentle yet effective aid that soothes irritation and supports the skin during the most demanding moments.*

# *Temperature Reduction Through Physiotherapy*

Neno Fiore pads work like a cooling dressing that soothes irritated skin right where it's needed most. They locally lower the temperature of the nipples—especially when pain or burning occurs after feeding. It's natural support that brings relief.

neno care series

# *Soothes and Supports Nipple Recovery*

neno care series

When breastfeeding becomes painful, every moment of relief matters. The cooling layer and soft texture of Neno Fiore help ease pain, burning, and nipple sensitivity. It's a moment of relief for tired skin—without the need for additional products.

# *Discreet, No Marks on Clothing*

neno-care series

Neno Fiore are thin, lightweight pads with an ergonomic shape that fits the breast perfectly. They remain invisible under clothing and do not shift during wear. The outer nonwoven layer prevents leakage and leaves no marks—even after many hours of use.

# *Nipple Protection*

neno care series

*During breastfeeding, nipples are extremely sensitive and can easily become irritated—for example, from contact with a bra. Neno Fiore creates a soft, protective layer that reduces friction and ensures comfort between feedings.*

neno care series

# *Gently Peel Away from the Skin*

The hydrogel layer with lanolin gently adheres to the skin, keeping the pad in place. When removed, it separates without pulling or causing extra discomfort—even when nipples are extremely sensitive. It's daily convenience and care for your comfort.

# *10 Pads per Package*

neno-care series

Each package contains 10 pads—2 per sachet in 5 separate sachets. It's a practical and hygienic solution, perfect for use at home, during travel, or in a hospital bag. Thanks to the individual sachets, you can always have them on hand—ready when you need quick relief.

neno care series

# *Dermatologically Tested*

*Neno Fiore are hydrogel breast pads with added lanolin that have been dermatologically tested—especially important during lactation.*

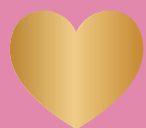

# *Out of Love for Closeness*

neno care series

Neno Fiore are lanolin-infused pads created with breastfeeding mothers in mind. They bring relief to irritated nipples and support skin recovery. Soft, gentle, and safe for both mother and baby—they align with the natural rhythm of lactation, offering comfort and protection every day.
