RECEIVER

Two mounting  
options  
(wall+ flexible holder)

3.5" screen

Silicone  
camera  
case

# *Automatic Night Mode*

With Neno Lelu, you can rest assured your baby is safe even in complete darkness. The camera automatically switches to night mode, providing a clear, high-contrast image without the need for manual adjustments – without disturbing your little one's sleep.

## ***Convenient Display***

The 3.5-inch LCD screen on the Neno Lelu delivers a clear image and allows you to monitor your child comfortably from anywhere in the room. Perfect for nighttime watch and everyday care.

## ***Extended Range***

Neno Lelu keeps you connected with your baby's room, no matter where you are – inside the house or out on the patio. With an indoor range of up to 50 m and an outdoor range of up to 300 m, you can go about your daily tasks without losing peace of mind.

2x

4x

**4x zoom**

Want to check if your baby is sleeping soundly or has shifted in the crib? Thanks to Neno Lelu's 4x zoom, you can monitor every movement and detail without entering the room. This practical feature gives you better visibility from anywhere in the house.

## ***VOX Standby Mode***

*With VOX mode, Neno Lelu activates only when it detects sound – conserving energy and eliminating unnecessary visual distractions. The screen turns on automatically with any noise from your baby's room. Additionally, a light indicator notifies you of sounds, so you never miss a signal.*

# ***6 Built-In Lullabies + White Noise***

*Neno Lelu offers a selection of six lullabies and white noise – perfect for soothing, calming, and creating a peaceful atmosphere in your baby's room.*

# *Temperature Sensor*

The built-in temperature sensor in Neno Lelu constantly monitors the conditions in the baby's room, keeping you informed of any changes. This is especially important for infants, who are more sensitive to ambient temperature.

# *Alarm Function*

With Neno Lelu, you can set reminders for feeding, diaper changes, or naps. The device helps you organize your day according to your baby's rhythm – and your own.

## ***Two-Way Communication***

Neno Lelu lets you soothe your baby with your voice – without getting out of bed. The microphone and speaker allow you to speak to your child from anywhere in the house, helping to build a bond and give a sense of closeness.

# *Constant Monitoring*

*Watch over your baby all day – and all night. Neno Lelu operates around the clock, responding to every change in the baby's room. Continuous video and audio connection gives you peace of mind, knowing you're always in the loop – even from another room.*

## ***Easy Installation***

Neno Lelu can be placed on a shelf, mounted on the wall, or hung in an optimal spot. The flexible holder allows you to adapt the device to any interior.

# ***Silicone Case*** for Neno Lelu

*Protect your baby monitor and enhance its appearance. The Neno Lelu silicone case with bunny ears not only safeguards the camera but also gives it a cute, child-friendly look. The case is easy to remove and clean, ensuring hygiene and a neat appearance.*

# ***Additional View***

*Need more than one camera? Neno Lelu supports the connection of an additional camera – an ideal solution if you want to monitor two rooms at once.*
