## *Handcrafted with Care*

*The adorable teddy bears, birds, and stars are hand-sewn from soft felt and filled with plush padding.*

*This makes them look cozy and inviting as they gently sway above the crib, bringing warmth and a touch of childhood magic to your baby's room.*

# *Easy to Assemble*

*The Neno Pico mobile is designed for effortless installation – it only takes a few moments to attach. The set includes a durable, thoughtfully designed arm that ensures a stable and secure fit.*

*Thanks to its universal construction, it's compatible with most cribs, offering everyday convenience and reliability.*

## *Stimulates Visual Development*

The gently moving plush figures catch your baby's eye and encourage visual tracking. This natural form of play helps develop your little one's ability to follow motion and distinguish shapes and colors from the very first months of life.

A high-angle photograph of a baby lying on its stomach, wearing a white long-sleeved shirt. The baby is looking up with wide, curious eyes, reaching out with its right hand towards a small, brown, bear-like toy hanging from above. The background is filled with other soft, out-of-focus toys, including a large white cloud-shaped toy and various animal figures. The lighting is soft and natural, highlighting the baby's features and the textures of the toys.

# *Supports Motor Skills*

*As the soft toys sway above, they invite your baby to reach out and explore. These small, spontaneous movements promote hand-eye coordination and support healthy motor development – an essential step in every child's early growth.*
