5in1

Choose Neno Beauty Auri – an elegant massager that combines sonic vibrations, red LED light, and EMS & RF technologies. The ergonomic Gua Sha-shaped head adapts to the contours of the face and neck, while the combination of technologies supports comfortable daily skincare. Intuitive controls and a handy form make it an easy way to enjoy a moment of relaxation at home.

Ergonomic Gua Sha shaped

Massage head – tailored to the contours of the face and neck

EMS (Electrical Muscle Stimulation)

Stimulates facial muscles, improving their tone and skin elasticity

RF (Radio Frequency)

Stimulates collagen production, firming and thickening the skin structure

Red LED light

Supports skin structure regeneration, improves its elasticity and helps reduce the appearance of minor discolouration

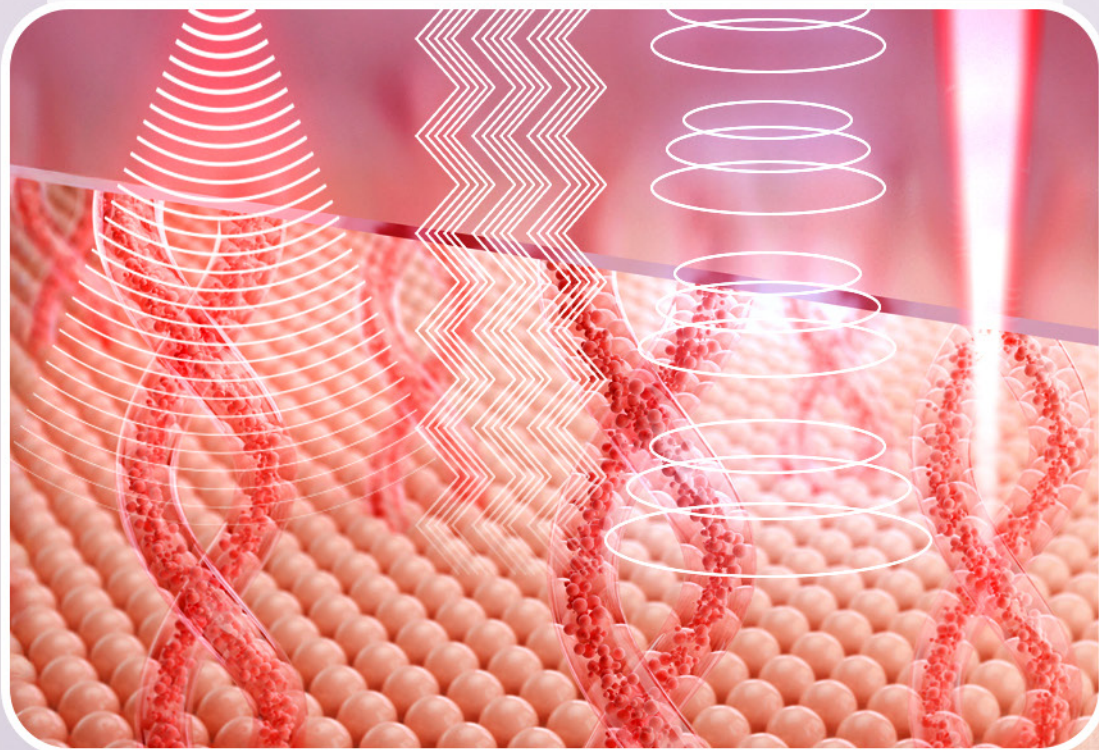

Sonic vibrations

Stimulate microcirculation and improve skin firmness

Exclusive Series

2 modes:

1. Anti-aging - combines RF technology and sonic vibrations.
2. Brighten - combines RF, EMS, red LED light, and sonic vibrations.

Each mode offers two intensity levels, allowing you to adjust to your skin's sensitivity and current needs. The higher level provides stronger sensations – if it feels too intense, simply switch to a lower level and apply a little conductive gel or skincare product. The ergonomic Gua Sha-shaped head perfectly fits the contours of the face and neck, ensuring a precise and comfortable massage.

Exclusive Series

A close-up photograph of a woman's face, eyes closed, as she uses a white, handheld facial device. The device is held against her right cheek. Overlaid on her cheek are several concentric, glowing pink circles, suggesting the area of treatment or the effect of the technology. The woman has dark hair and is wearing a light-colored top. The background is softly blurred.

EMS *technology*

Neno Beauty Auri uses EMS (Electrical Muscle Stimulation) technology, working like a subtle workout for your face. Gentle micro-impulses activate the muscles, restoring firmness and improving skin elasticity. The result is a fresher, more radiant complexion. You may feel slight tingling during the treatment – a natural reaction of the skin to EMS. With two power levels, you can easily adjust the intensity. Regular short sessions provide the best results, depending on consistency and individual factors.

Exclusive Series

RF technology

Neno Beauty Auri applies radiofrequency at 1 MHz. RF waves deliver energy deep into the skin, producing a subtle thermal effect. This activates regenerative processes and structures responsible for firmness and elasticity, without damaging the surface. The treatment feels like even, pleasant warmth.

Exclusive Series

Sonic vibration

Sonic vibrations create gentle pulsations that stimulate microcirculation and relax tense areas. This massage supports natural skin regeneration, giving the complexion a rested look and healthy glow, while providing instant relief.

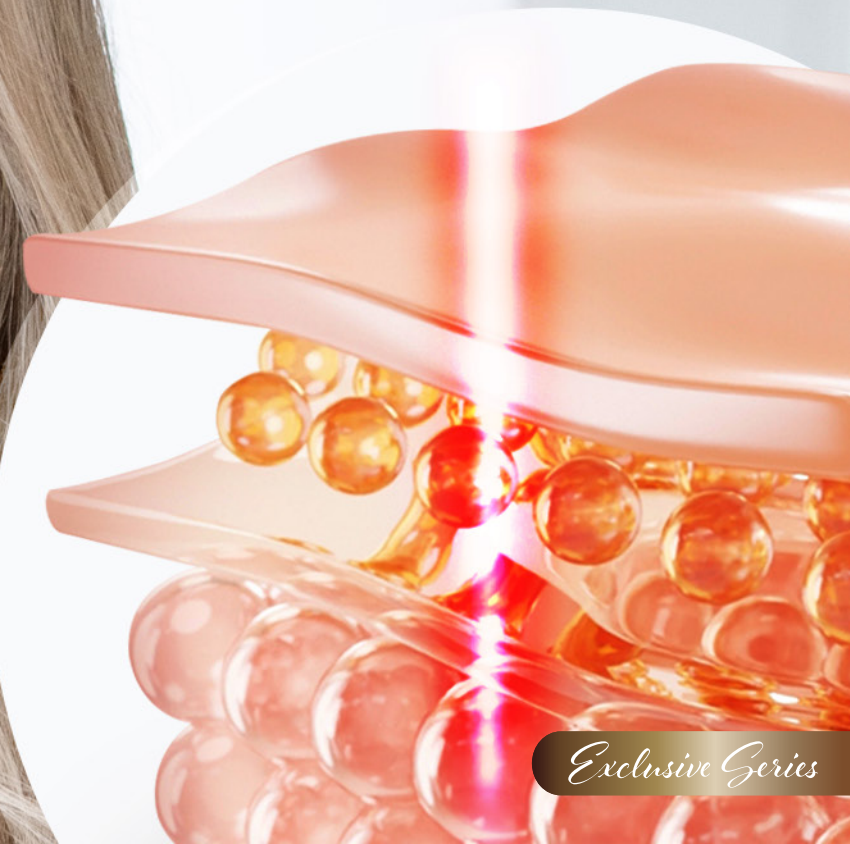

Exclusive Series

***Red LED** light*

Red LED light (620 nm) supports the skin's natural regenerative processes.

Regular use can help reduce the appearance of minor discoloration and restore a healthier, more radiant look – enhancing freshness and an even tone.

Exclusive Series

Gua Sha-shaped ergonomic head

Neno Beauty Auri is inspired by the traditional Gua Sha tool, present in Far Eastern beauty rituals for centuries. The ergonomic head perfectly fits the natural contours of the face and neck, enabling precise and comfortable massage. Its carefully designed shape ensures stable pressure, improves circulation, supports lymphatic drainage, and relaxes tense muscles, making daily skincare more effective and relaxing.

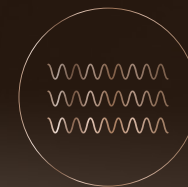

Exclusive Series

Anti-aging mode

The first mode uses RF combined with sonic vibrations. The massage creates a subtle, pleasant warmth on the skin – a natural effect of radio waves that support renewal, improve elasticity, and restore firmness. Regular use helps smooth fine lines and improve overall skin condition.

Sonic vibrations

RF

Exclusive Series

Brighten mode

The second mode combines EMS, RF, red LED light (620 nm), and sonic vibrations. EMS impulses activate facial muscles, improving tone, accompanied by a gentle tingling sensation. Red LED supports natural regeneration, while RF waves and vibrations stimulate collagen production and firm the skin.

Massage directions

When using Neno Beauty Auri, move the head from the center of the face outward and gently upward, following the guide lines in the illustration. For optimal results, comfort, and safety, use the device only with a conductive gel suitable for RF and EMS, or with a light, oil-free skincare product. Never use on dry skin – this may cause discomfort, irritation, and reduce effectiveness.

Exclusive Series

Safety and hygiene Guidelines

Maintain hygiene:

after each use, clean the device by wiping it with a dry cloth or one slightly dampened with warm water and mild soap. For disinfection, wipe the head with a cloth soaked in isopropyl alcohol (up to 70%). Avoid aggressive detergents, bleach, or immersing the device in water.

Do not use if you have electronic implants:

(e.g. pacemaker, insulin pump) or metal implants in the head and neck area (including dental implants, bridges, crowns, braces, or metal hearing implants).

Avoid sensitive areas:

do not use directly under the eyes, on the eyelids, or on the thyroid area of the neck. Around the eyes, nose, and mouth always use the lowest intensity level.

Consistency in moderation:

best results come from regular care 2–4 times per week for 6 minutes, with breaks and varied modes.

The device must not be used during:

pregnancy or breastfeeding.

Before use:

read all safety precautions included in the manual.

Memory function

Your favorite settings always ready – Neno Beauty Auri remembers your last chosen parameters, so at the next use it works just the way you like. No extra setup, quicker and more convenient.

Exclusive Series

Timer

Let your skincare guide itself. The built-in timer ensures the perfect rhythm: every minute a signal reminds you to change the massage area, and after six minutes it indicates the end of the session. This way, every treatment is even, effective, and fully comfortable.

Exclusive Series

Accessories included

Neno Beauty Auri comes with a magnetic cover that protects the head from dust and dirt, an elegant pouch for safe storage between sessions, and a soft microfiber cloth for easy cleaning.
