IPX7 waterproof

Discover the Neno Beauty series

Discover a daily skincare ritual with Neno Beauty – a series created to combine effectiveness with gentleness. In the comfort of your home, you can care for your skin every day, enjoying its natural freshness, smoothness, and glow.

Exclusive Series

**3 levels
of vibration intensity**

Deep cleansing

The thermal function deeply cleanses and opens pores, helps remove impurities and prepares the skin for care by washing away make-up residue.

IPX7 waterproof

Case

Magnetic box – protects against dust and bacteria.

Silicone fibres

*Ultra-soft silicone fibres (0.6 mm)
– gentle on the skin, create a dense foam.*

Sonic vibrations

*7,500 pulses per minute for effective
removal of impurities.*

Exclusive Series

Beauty begins at home

Reach for Neno Beauty Mica – a thermo-sonic cleansing brush that combines sonic vibrations (7,500 pulsations/min) with a gentle warming function. It effectively removes impurities and makeup residue, while the built-in 2-minute timer makes daily care easier.

On your terms

Every skin type needs a different approach. That's why Mica offers 3 vibration intensity levels, each available in two versions:

- Standard – without heating
- Thermal – with gentle heat

With just one click, you choose the mode that best suits your skin's needs.

Exclusive Series

Sonic vibrations

The thermo-sonic Neno Beauty Mica brush uses sonic vibrations – up to 7,500 pulsations per minute. These vibrations move the brush's soft bristles, effectively removing sebum, makeup residue, and impurities without scrubbing. They also reach hard-to-clean areas like around the nose and jawline, while providing a micromassage that improves microcirculation and leaves skin looking healthy.

7500

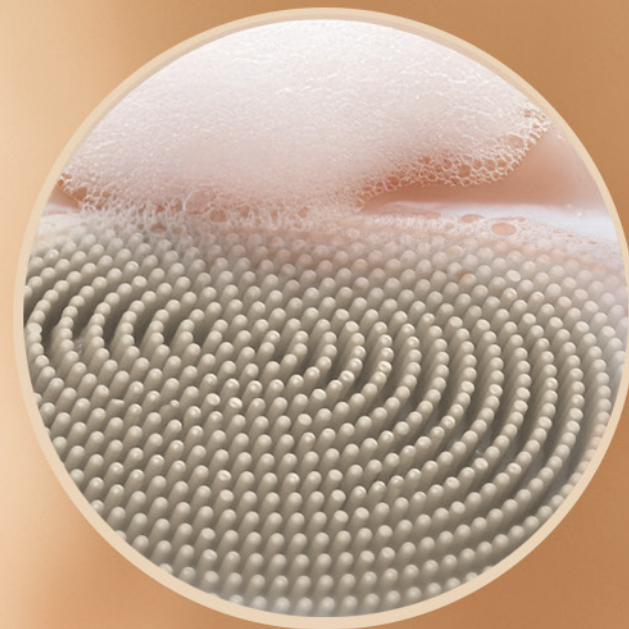

Exclusive Series

Gentle warming

Neno Beauty Mica is equipped with a gentle heating mode that makes care even more effective. Heat improves circulation and opens pores, ensuring deeper cleansing and better absorption of skincare products. It combines effective technology with relaxation – turning your routine into a mini home spa.

Exclusive Series

Gentle care for You

Ultra-soft silicone bristles (0.6 mm) create a rich foam that removes impurities and makeup, leaving skin fresh and smooth. They are easy to clean, long-lasting, and will support your daily care routine for a long time.

Exclusive Series

Proper use

Move the brush in circular motions across your face, avoiding the eye area. Massage each area (forehead, cheeks, chin) for about 20–30 seconds. Do not press too hard to avoid irritation. If you have sensitive or redness-prone skin, choose the lowest vibration intensity. Do not use the brush too long on one spot.

Exclusive Series

A woman with dark hair pulled back, holding a white facial brush with a textured head. She is looking towards the camera with a slight smile.

Safety and hygiene guidelines

Remove makeup before use, then apply your favorite cleanser to the damp brush head or directly onto wet skin.

Recommended frequency:

- **Normal & oily skin** – 1–2 times daily
- **Dry & sensitive skin** – once daily or every other day
- **Acne-prone skin** – only after consulting a dermatologist.

Watch your skin's reaction – reduce frequency if irritation occurs.

Do not use on burned skin, open wounds, inflammation, cold sores, after recent surgery, or after fresh aesthetic treatments (chemical peels, mesotherapy, laser, fillers), or in cases of active atopic dermatitis flare-ups.

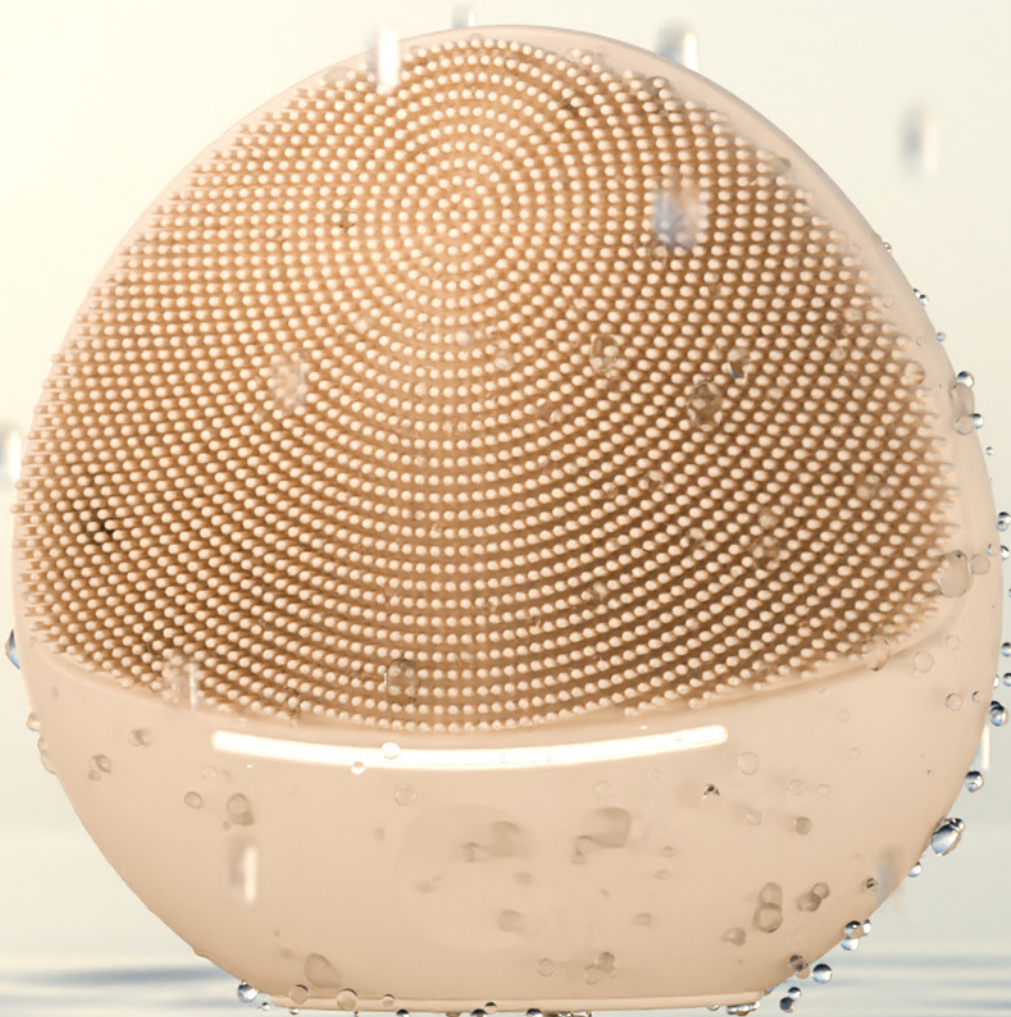

After each use, wash the brush head with lukewarm water and mild soap. For extra hygiene, you may spray with an alcohol-based solution (60–70%). Dry thoroughly and store in a clean, dry place. For external use only. For hygiene reasons, it is recommended that each device be used by one person.

Always read all safety precautions in the user manual before use.

2-minute timer

The timer measures a 2-minute cleansing cycle and automatically switches off the brush. This ensures optimal cleansing without rush or guesswork. The memory function also remembers your last chosen mode, making each use easier and more convenient.

Exclusive Series

Waterproof IPX7

The Neno Beauty Mica brush has an IPX7 waterproof rating, so you can safely wash it under running water. Its resistance to short-term immersion makes daily care even more convenient and safe.

Exclusive Series

Accessories included

The set includes an elegant magnetic case that protects the brush, makes it easy to carry, and lets you conveniently take it anywhere. The case also has a practical strap, so you can hang it wherever it's most convenient – next to a mirror or sink. A USB-C cable is also included for quick and easy charging.
