Every Mom  
is a Superhero! 

## *Brushing time control*

Neno Pulito is an electric toothbrush designed especially for young children, helping them learn proper brushing techniques. It features a built-in timer that keeps brushing time on track. Every 30 seconds, the toothbrush pauses briefly to signal that it's time to switch sides. The entire brushing session lasts 2 minutes – exactly as recommended by dentists.

## *High vibration speed*

The Pulito model operates with a very high vibration frequency while remaining gentle on children's gums. With 38,000 movements per minute, it effectively removes plaque and cleans between teeth, ensuring precise brushing even in harder-to-reach areas. Thanks to this technology, kids can develop healthy hygiene habits from an early age.

**38000**  
vibrations per minute

## *Replaceable soft-bristle heads*

The toothbrush is equipped with soft nylon-bristle heads that are completely safe for baby teeth and sensitive gums. The synthetic fibers clean thoroughly without causing irritation, and their smooth surface is easy to keep clean.

The set includes one replaceable head that can be easily attached and should be replaced every 3 months to maintain proper hygiene and brushing effectiveness.

## *For children aged 3+*

Pulito is suitable for children from the age of 3. Its lightweight design, soft bristles, and simple operation make it easy for kids to use the toothbrush independently every day. It's a great way to encourage little ones to care for their smile and build healthy habits from the start.

3+

## *Three modes with colorful LED lighting*

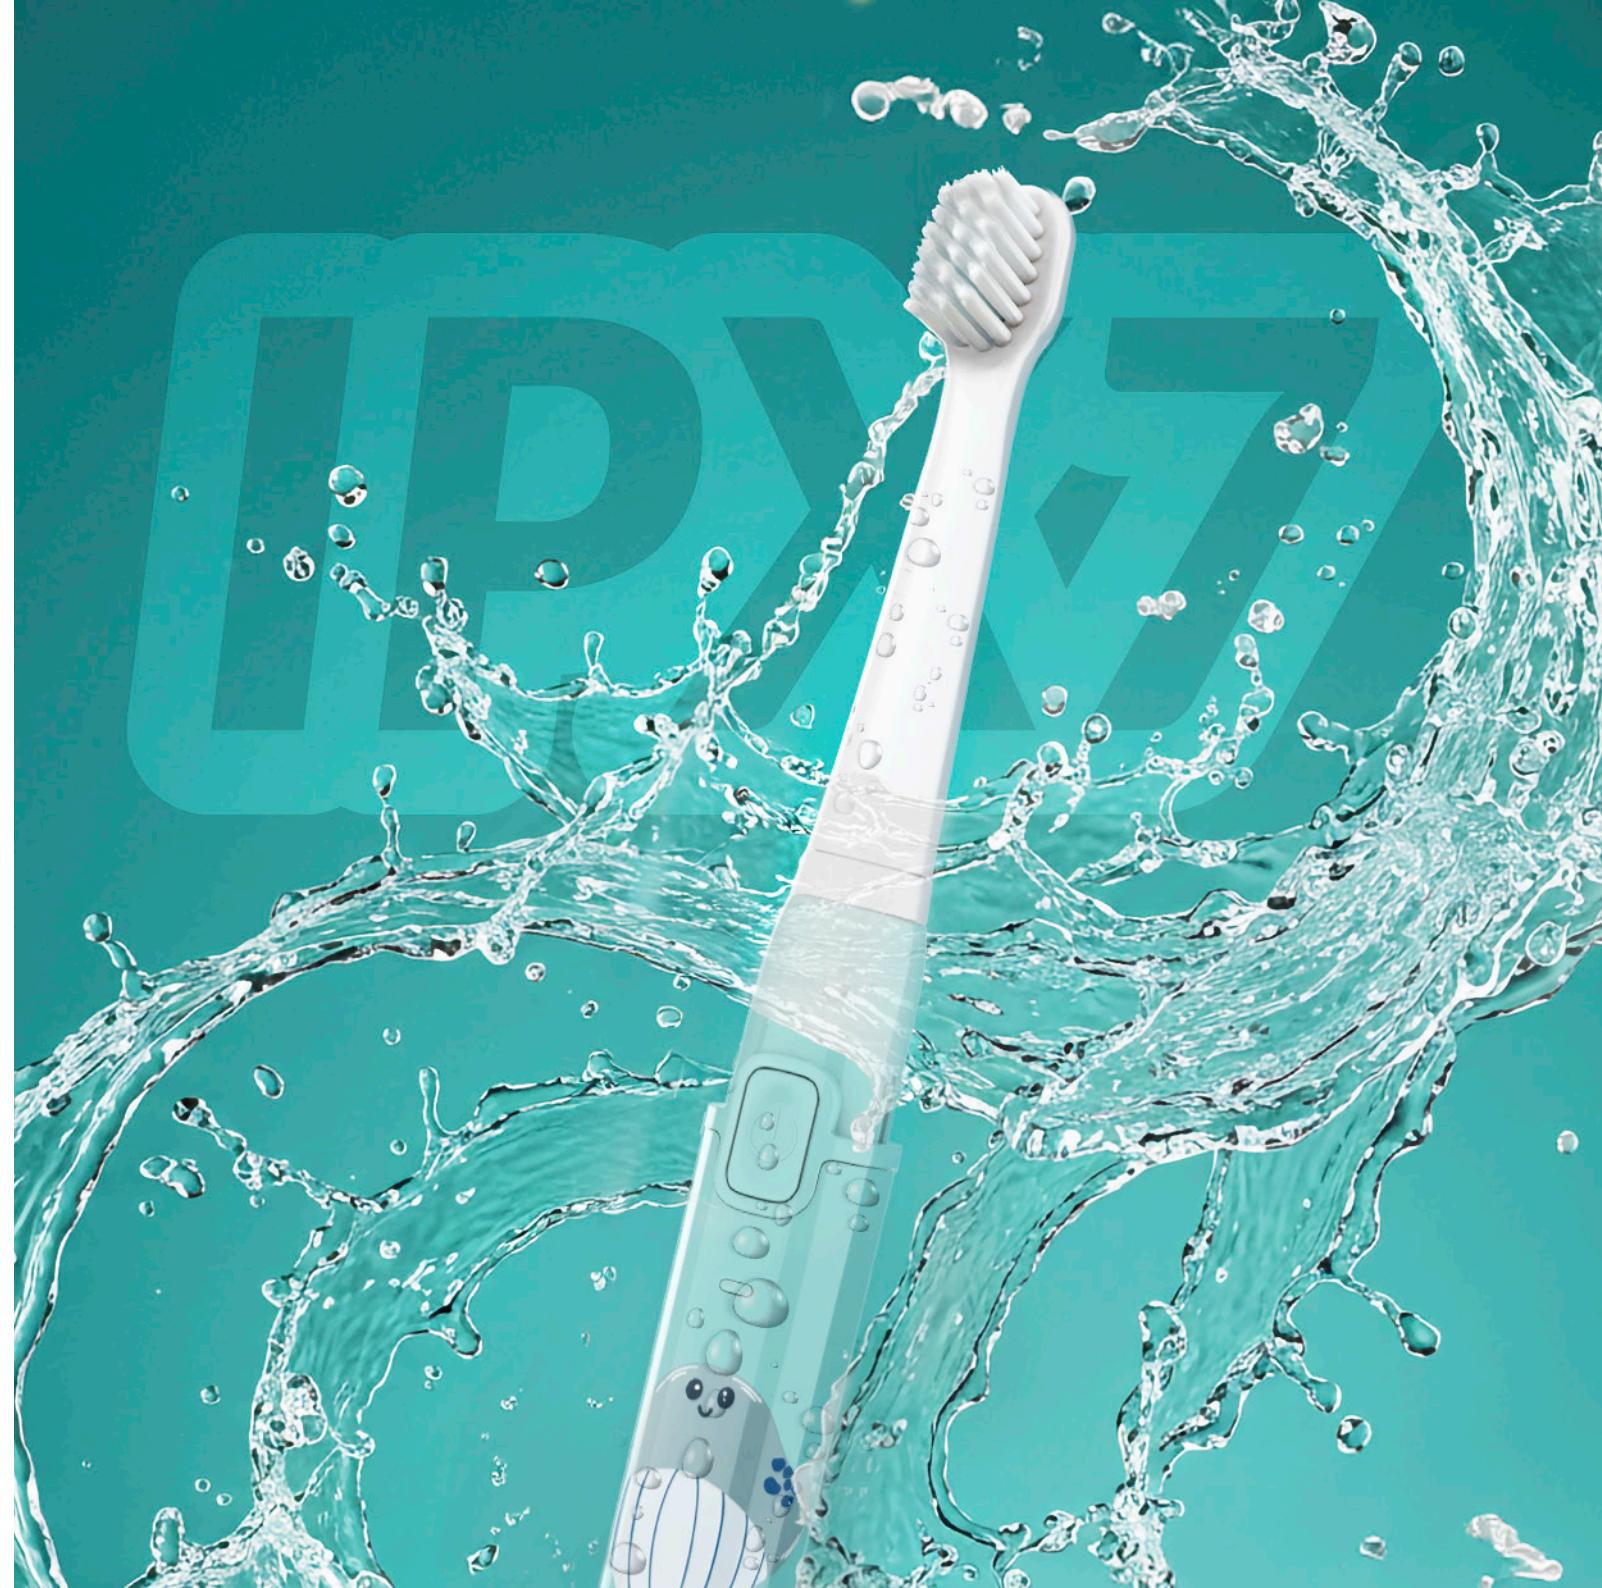

The toothbrush offers three operating modes tailored to a child's needs:  
Soft - ultra-gentle, perfect for beginners;  
Clean - thorough everyday cleaning;  
Massage - a gentle gum massage that supports gum health.  
Each mode is marked with a different LED color, making them easy to distinguish and adding an element of fun to daily brushing.

# IPX7 waterproof

With its IPX7 waterproof rating, Pulito handles bathroom moisture with ease. It's resistant to splashes and even brief submersion, meaning kids can use it without worrying about damaging the device.

This practical feature increases both the safety and durability of the toothbrush.

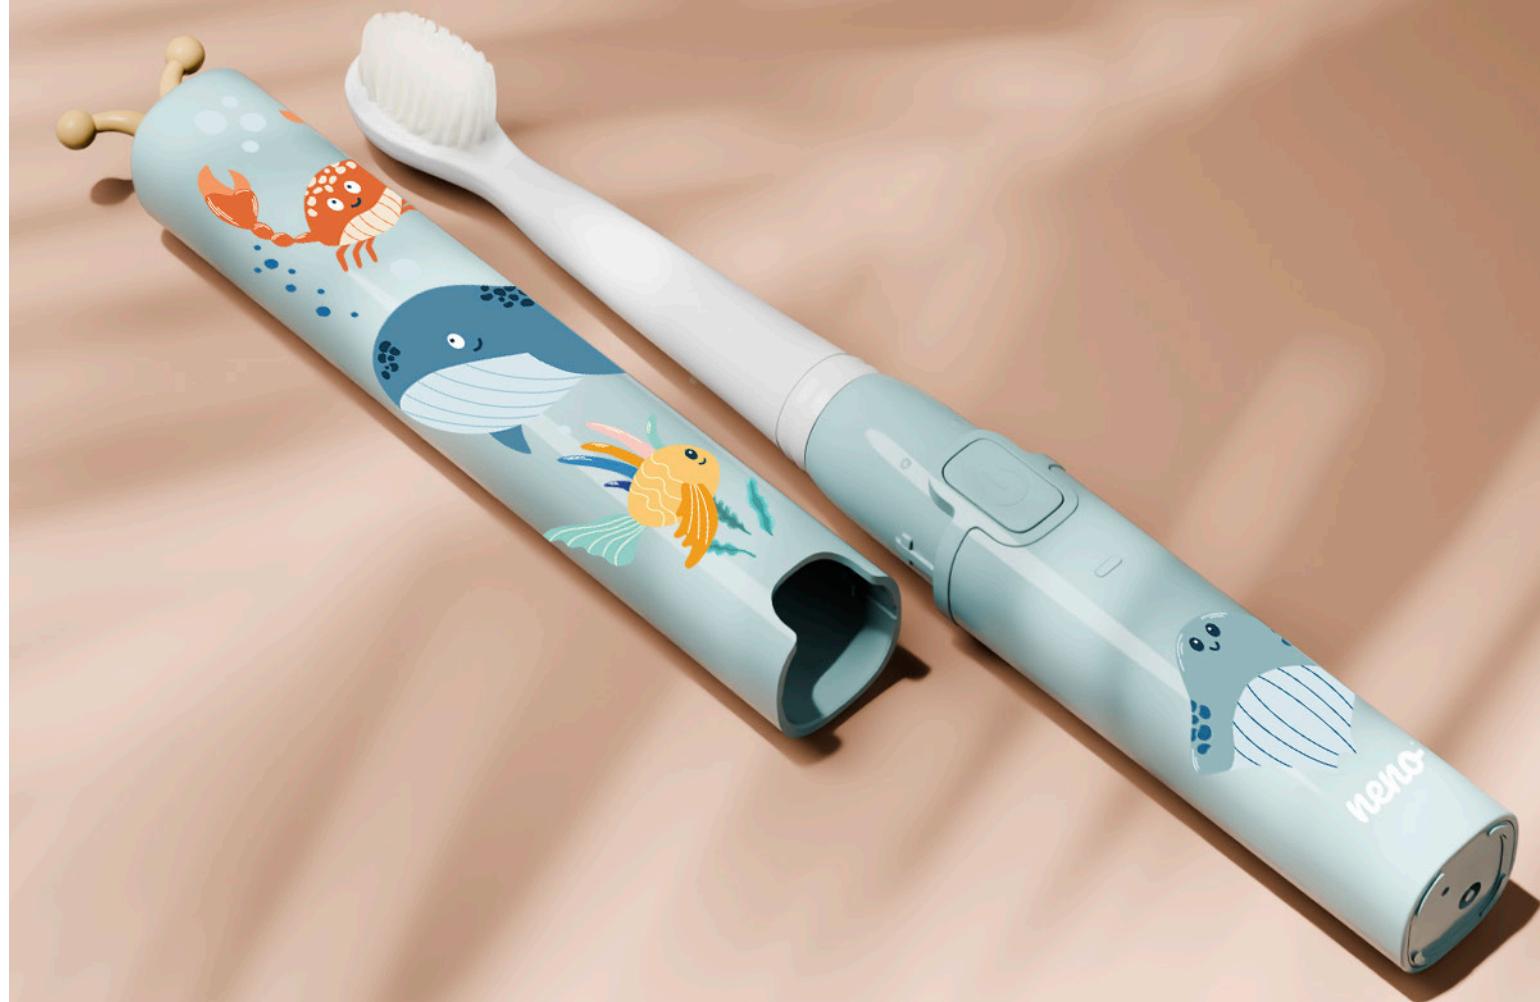

## ***Friendly, child-focused design***

Pulito captivates with a cheerful design created for young users. Available in coral and blue, it features adorable ocean creatures on the casing – turtles, crabs, fish, octopuses – along with bubbles and seaweed that create a friendly underwater scene. This playful theme turns daily brushing into a fun little adventure.

## *Hygienic protective case*

The set includes a practical protective case that allows the toothbrush to be stored safely and hygienically both at home and while traveling. The cover protects the brush head from dirt, dust, and bacteria, ensuring it stays clean and ready to use at any time. It's a convenient solution that enhances hygiene and everyday comfort.

## *A perfect gift for little explorers*

Neno Pulito is a great gift idea that encourages children to take care of their teeth in a fun way. Its ocean-themed design brings the underwater world to life, helping kids naturally associate daily hygiene with water, cleanliness, and play. The LED lighting, three brushing modes, soft bristles, and effective cleaning make brushing an enjoyable ritual while staying completely safe. With its simple operation and suitability for children aged 3 and up, Pulito is both a practical and appealing choice for parents and their little ones.
