bottle 240 **bottle 300**

BABY BOTTLES FOR FEEDING
AND LEARNING TO DRINK

Two Sizes

The Neno Bottle 240 and Bottle 300 are two new models in Nenos range of bottles. We designed a multi-purpose product. The bottle is not only suitable for serving milk, but also great for learning to drink water or other beverages. Bottle 240 is intended for children between 3-6 months of age, and Bottle 300 will be perfect for a toddler over six months of age.

Bottle 240

Bottle 300

Anti-colic

Every Neno bottle has a teat with a built-in anti-colic valve, and the ergonomic shape is designed to resemble a mum's breast allowing for the baby to naturally eat or drink from it.

neno®

Safe

Both the Neno Bottle 240 and 300 are made of materials free from bisphenol and other harmful substances. The Neno Bottle series guarantee safety and the highest quality.

i Easy Drinking

The Neno Bottle allows fluids to flow freely regardless of if it is held vertically or horizontally. This is thanks to the integrated tube system which was added keeping in mind that your little one will likely find new and creative positions to lay in.

neno

A baby is lying on its stomach, wearing a light blue hood with white lace trim, and holding a clear Neno bottle with a white cap. The bottle has a white integrated tube system visible inside. A dashed line with an arrow points from the text box to the tube system.

Magic Float

The set also includes a special swimmer-ending straw. Thanks to this straw and its swimmer ending, the straw will always be submerged in the contents of the bottle no matter what position the bottle is in allowing for liquid to flow freely.

Comfort Of Use

Neno Bottle series is comfortable for both the child and the parent. The ergonomic shape of the bottle provides a comfortable grip for adults, and additional handles are a great introduction to learning how to drink independently.

Convenience and Hygiene

Thanks to the wide neck of the Neno Bottle, you can now easily fill the bottle without spilling, and you can easily clean all nooks and crannies after use to ensure hygiene and cleanliness.

Universal

The Neno Bottle 240 and Neno Bottle 300 come with an attachable handle to help teach your little one to drink on their own. The handle can be easily attached or removed when you would like to use the bottle for feeding.

Perfect Match

The Neno Bottle series is 100% compatible with all Neno breast pumps, so you can easily combine both products.
