Control with
a single touch

Handy cup
included

*Every Mom
is a Superhero!* ♥

Safe heating you can rely on

Neno Luvio is a portable warmer with a boiling function that delivers exactly the temperature you need – without guesswork or the risk of overheating.

The device allows you to quickly warm breast milk or water, boil it, and then maintain a constant temperature for an extended period. This ensures your baby's meal is ready to serve almost instantly. Neno Luvio is perfect not only for home use, but also for walks and travel.

Complete freedom to heat wherever you are

The Neno warmer is designed for active parents who don't want to give up convenience outside the home.

Its compact form lets you easily heat water or prepare a meal for your baby while traveling, walking, or visiting family. Neno Luvio doesn't limit you by location – it gives you freedom and the confidence that you always have access to warm water or milk.

Leak-proof protection

Neno Luvio is designed to ensure maximum tightness during both use and transport.

Its solid, secure closure effectively prevents leaks, so you can safely carry it in your bag or backpack. It's a practical solution that eliminates the risk of spills in any situation.

Constant temperature without reheating

Thanks to the temperature maintenance function, there's no need to rush or reheat water – everything is ready exactly when you need it.

This is especially convenient during night feedings, travel, or busy daily routines when every moment counts. Neno Luvio ensures comfort and peace of mind when planning your baby's meals.

Clear display, easy control

The intuitive display of Neno Luvio allows for quick and convenient control of all device functions.

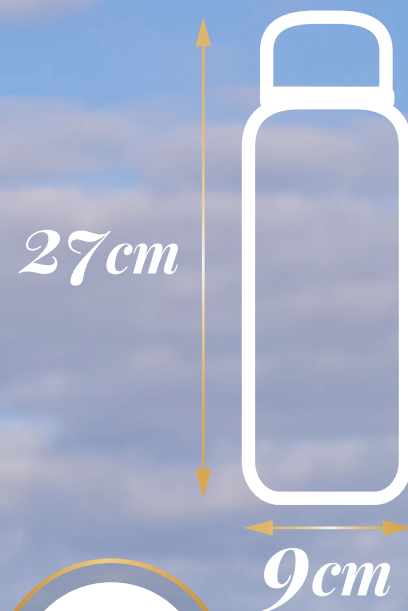

The clear interface makes it easy to set temperature and modes without unnecessary complexity. This makes the device simple and comfortable to use – even when your hands are full or you're in a hurry.

Take it wherever you want

Neno Luvio is a compact device that easily fits into a handbag, stroller bag, or backpack.

Its handy size means you can always have it with you – at home, on a walk, or while traveling. It's a practical solution for moms who want to be prepared for any situation.

Boiling water always within reach

Neno Luvio allows you to quickly boil up to 200 ml of water wherever you are.

Thanks to the boiling function, you don't need access to a kitchen or kettle – just one device is enough to prepare water in moments. Perfect for travel, walks, or visits, when convenience and independence matter most.

200ml

Efficient charging, greater convenience

A full charge of Neno Luvio takes about 3 hours using the included power adapter.

This is a convenient solution for busy parents – shorter charging time means greater mobility and confidence that the device will be ready exactly when you need it.

150 ml

Optimal capacity for every situation

The 550 ml capacity allows you to prepare more water at once and use Neno Luvio longer without frequent refilling.

This is especially convenient at night, during walks, or while traveling – fewer interruptions, more peace of mind, and always having warm water at hand.

Warm drink in no time

The portable Neno Luvio milk warmer quickly heats water to the desired temperature, so you don't have to wait long to prepare a drink for yourself or your baby.

Heating 150 ml of water to 40°C takes just 3 minutes, making it perfect for situations where time matters. It's everyday support – just a few moments to enjoy a warm drink without stress or delay.

Top-level hygiene

Neno Luvio has been designed to ensure a high level of hygiene and user comfort.

Its sealed construction and easy-to-clean components minimize the risk of contact with contaminants. Additionally, the device features a pre-cleaning mode that heats water up to 65°C, allowing you to rinse the interior before use and maintain everyday cleanliness. This way, you can be sure that every portion of prepared water or milk is safe and suitable for you and your child.

Practical 2-in-1 lid – more than just a cover

The portable Neno Luvio warmer features a functional 2-in-1 lid that can also be used as a cup.

This is especially convenient outside the home – no need for extra accessories. With one move, you can turn the lid into a handy cup and comfortably serve a drink. It saves space and enhances everyday convenience.

Temperature tailored to your needs

The ability to precisely set the temperature allows you to perfectly adjust the heat to the type of drink you're preparing. Whether you need hot water or gentle warming, you can easily select the right level and maintain it throughout use.
