Neno means child. That's it. That's the clearest message we could send to the world with our products. They are dedicated for Parents, to make their daily life easier and to enjoy the time spent with their children. Neno is a Polish company that delivers products that meet your expectations of quality, that are visually attractive, practical and safe to use.

Neno products are mostly aimed at young Parents of children at the age of 0–3. Our mission and philosophy is to provide support and comfort for parents during that most beautiful, but also most difficult stage of life. We are parents ourselves and know the perils of battle against colic, fever, runny noses or feeding problems, and how invaluable any amount of help is. And all of that for the sweetest reward of all – the smile of your child.

First Neno brand baby monitors, infrared thermometers and breast pumps were a smashing success. A community surrounding our products was born, composed of satisfied mothers. The process design and creation of Neno products is supported by midwives, physicians and nurses. We also cooperate with childbirth schools and lactation experts.

Meet the Neno breast pumps

- 1 All Neno breast pumps are wireless, 2-phase or 3-phase.
- 2 The breast pump kit contains a 24 mm funnel (the most common womens' choice), made of soft, flexible silicone.
- 3 It is possible to match each breast pump with a silicone funnel in three sizes: 21 mm, 24 mm, 27 mm
- 4 The Neno breast shields are created from soft material which prevents chafing and irritation of the nipples.
- 5 The breast pump kit contains:
 - a bottle with a teat for babies from the first days of life,
 - a bottle stand so that the bottle can be set down comfortably with milk, without fear of spilling the milk,
 - stopper for convenient, clean storage of the funnels,
 - spare valves,
 - a bottle stopper to hygienically store the milk in the refrigerator.
- 6 Neno breast pumps have a special closed system, which means the highest standard of safety and hygiene for breast pumping.

Recommendation

OF THE POLISH SOCIETY OF MIDWIVES

Neno breast pumps have received an official recommendation from the Polish Association of Midwives. This proves that our products are not only appreciated by breastfeeding women, but also find recognition among experts.

This is not the first such recommendation in the medical community. At the beginning of January, Anna Bulczak from the 'Zaufaj Położnej' portal has taken patronage of our products. This is a great honour for us and a motivation for further work.

What does the recommendation of the midwifery community provide?

Above all, it is proof that the recommended products are in line with current medical knowledge and safe for patients. Neno breast pumps are the answer to the most common lactation problems. The mechanisms used in Neno products - such as the third pumping phase - are designed to stimulate the breasts to produce even more milk. The third extraction phase of the Neno breast pumps combines elements of both the stimulation and active extraction phases. The solution introduced faithfully mimics a baby's natural sucking pattern, so that the glands are stimulated to work even harder.

In addition, the Neno breast pumps use 100 per cent media separation, which ensures complete hygiene and safety. The position of the diaphragm in Neno breast pumps provides a tight barrier between the bottle and the funnel and the tubes and motor of the device. This design protects the tubing and the motor of the breast pump from contact with the milk and keeps the breast milk hygienic and fresh. The closed system is used in both Neno single and Neno double breast pumps.

The Polish Midwifery Association is an association of midwives from all over Poland, whose tasks include raising the quality of midwifery care, as well as participating in the development of health programmes in the care of women and families. The association organises a number of educational campaigns and - like the Neno brand - supports natural breastfeeding. We are proud of the recommendation given and thank you for your trust.

neno

uno

wireless single breast pump

Neno Uno is a smart breast pump that imitates a baby's suction in order to stimulate natural lactation. The device has 6 stimulation settings and 9 milk expression intensity levels, letting you adjust it to your needs. The breast pump also has a settings memory feature. Neno Uno is perfect for trips, vacations and time spent outdoors.

neno primo

wireless single breast pump

It is a single electronic breast pump operating in two modes: stimulation and expression. Each of these modes works on 5 and 9 levels respectively. The breast pump is light and handy – you can easily put it into a bag. It delights with minimalism and simplicity. If you are not a supporter of the touch control panel, the breast pump has a classic button control system.

nenobella

wireless single breast pump

The Neno Bella breast pump was designed with encouraging natural lactation in mind. Before helping you express breast milk, the Neno Bella breast pump stimulates your mammary glands, ensuring better milk flow. You can use this breast pump regardless of your breast size. The breast pump has two phases of operation.

**3-phase wireless waterproof  
single breast pump**

It is our third premium breast pump. The three-phased, cordless Neno Perfetto electronic breast pump is equipped with an IPX6 waterproof function. It is distinguished not only by its unique and elegant design but also by the presence of a third, additional phase of pumping. This mode is perfect for stimulating lactation, as it faithfully mimics the sucking movements of a baby. By using the third pumping phase, the breast is properly emptied, and — as a consequence — the mammary glands are stimulated to continue producing food.

Dimensions: 80×68×60 mm

the perfect size  
for you and enjoy  
correct lactation

3 sizes: 21 slim, 24 standard, 27 large

Cap material: silicone

Thread compatible with all NENO breast pumps

# nenospare parts kit

set of spare parts for breast pumps

Your child's safety is our priority. When you are away from home for longer and you cannot clean your breast pump after use, use the handy set of spare parts. Inside you will find: a silicone breast shield, a replaceable tube, a suction bowl, and a valve. Each element is fully compatible with all Neno breast pump models. Everything for your comfort and baby's safety.

In set: 1×breast shield, 1×PCV tube, 2×valve, 2×suction bowl  
Compatible with: Neno Mare, Neno Angelo, Neno Bueno, Neno Uno, Neno Due, Neno Bella, Neno Bella Twin, Neno Camino  
Package dimensions: 225×176×170 mm

## How often should I replace breast pump parts?

### membrane

- about 8 weeks
- about 3-4 weeks

### valve

- about 2-3 months
- about a month

### breast shields

- when you notice wear and tear
- every 6 months

### drain

Replace if moisture enters or if a drain is damaged

Replace breast pump parts that come into contact with milk when you notice wear and tear cracks or a distinct change in colour.

• use 1-3 per day

• use more often

# **nenobags for milk storage set**

set of bags for milk storage

Thanks to the special material used, your breast milk can be refrigerated or frozen in these bags freshly after expression. The bags have fields for important information concerning when the milk was expressed that you can fill in.

neno libero

hands-free breast pump bra

Neno Libero is a comfy pumping bustier for women – masters of multitasking. Its idea is "hands-free" – pumping breast milk without the use of hands. It's discreet and comfortable and can be an alternative to a classic bra. Thanks to soft cotton material you won't even feel if you have it under your clothes. The product is fully compatible with all Neno breast pumps. Underbust adjustable circumference (from 71 to 102 cm) makes it fit sizes XS – XL. It's a comfort for modern women.

Particle size: MMAD about $5 \mu\text{m}$
Medicine container capacity: ≤ 8 ml

Power supply: USB cable or battery 2×AA (lack in set)
Main unit dimensions: 42×34×40 mm
Set weight: 72 g

compressor nebulizer

This is an exceptionally small and ultra-light nebuliser that will successfully inhale both adults and children. It is an irreplaceable device for the treatment of any upper respiratory tract infection. Its operation is quiet and efficient.

Power supply: AC 100V - 240V, 50Hz/60Hz
Medication container capacity: $\leq 8\text{ml}$
Air duct length: 150 cm
Number of masks: 1×for a child; 1×for an adult
Mouth tip: yes
Aerosol output: $\geq 0.20\text{ ml/min}$
MMAD (average aerosol particle size): approx. $5\mu\text{m}$
Operating pressure range: 20 kPa - 80 kPa (2.9 psi - 11.7 psi)
Noise Level: $\leq 52\text{Db}$
Respirable fraction FR $\geq 76\%$
Spare air filter: yes, 2 pcs
Treatment time: 25 minutes, 40 minutes break
Storage temperature: $-20 - 50^{\circ}\text{C}$
Storage atmospheric pressure: 700 - 1060hPa
Permissible air humidity: 30 - 85% RH
Dead volume (residual): $\leq 0.7\text{ ml}$
Nebulizer weight: 315g
Nebulizer dimensions: 143×80×67mm
Box weight: 630 g.
Box size: 162×147×91mm

fast
measurement

modern
design

Measurement distance: 1,5–5cm
Measurement precision: $\pm 0.2^{\circ}\text{C}$ ($\pm 0.3^{\circ}\text{C}$ in different ranges) (35.0°C – 42.0°C)/
 0.4°F (95.0°F – 107.6°F)

Temperature measurement range: $\pm 0.3^{\circ}\text{C}$ 32.0°C – 42.2°C (89.6°F – 108°F)

Measurement spot: Forehead

Measurement units: Degrees Celcius ($^{\circ}\text{C}$) or degrees Fahrenheit ($^{\circ}\text{F}$)

Measurement memory: 32 measurements

Temperature alert: Yes, at 37.8° and then at 42.2°C , alarm sound

Power: DC 3V battery AAA $\times 2$ – not included

Automatic power-off: after 1 min of inactivity

Operating temperature: 16.0°C – 35.0°C

Relative humidity: 15–80%

Storage temperature: from -20°C do 55°C

Storage air humidity: 15–93%

Operating air humidity: 15–80%

Dimensions: $150 \times 37 \times 16,3$ mm

Product lifespan: 5 years

Weight: 51 g (w/o batteries)

termometr bezdotykowy do pomiaru temperatury ciała

Neno Medic TO7 is a medical contactless thermometer with 5 modes for babies and adults. The magnetic cap allows precise measurement in the ear. You will measure body, water and air temperature with it. The easy-to-read LCD panel makes it easy to read the measurement. It is a medical product recommended by doctors and midwives. It can be used in hospitals, medical facilities, kindergartens and nurseries. It provides a range of temperature measurement from 22 to 43°C.

• *for ear*

• *for forehead/
temple, surround-
ings, water, food*

Measurement distance: 1.5–5cm
Measurement accuracy: forehead $\pm 0.2^{\circ}\text{C}$ (36.0°C – 39.0°C)
($\pm 0.3^{\circ}\text{C}$ in other ranges)/
ear $\pm 0.2^{\circ}\text{C}$ in ranges $36\sim 39^{\circ}\text{C}$,
($\pm 0.3^{\circ}\text{C}$ in other ranges) object/ room: $\pm 1^{\circ}\text{C}$
Place of measurement: Forehead, Ear
Units of measurement: Celsius degrees($^{\circ}\text{C}$) or Fahrenheit degrees ($^{\circ}\text{F}$)
Memory: 20 measurements
Power supply: DC 3V Batteries AAA $\times 2$ – in set
Automatic power-off: after 10 seconds of inactivity
Operating temperature: $10^{\circ}\sim 40^{\circ}\text{C}$
Storage temperature: $-20^{\circ}\text{C} \sim 50^{\circ}\text{C}$
Dimensions: 145.5 \times 45.4 \times 46.4 mm
Weight: 72 g (without batteries)

Download the ebook and learn more about lactation

Download Lactation Guide at www.neno.pl/lactation-guide/?lang=en

Dear Parents,

Working in a collaboration with midwifery experts, we have created a lactation guide for you. It is a collection of answers to the most frequently asked questions, such as and dilemmas that accompany you during pregnancy and parenthood.

You will learn, among other things, how to start lactation, how to deal with breast pain, under what conditions to safely store pumped breast milk and much, much more! We want to give you reliable knowledge, dispel myths and educate you about the most beautiful, but also particularly demanding period of your life.

It is a work of our hands that would never have been created without you. You are our greatest inspiration! Your needs, questions and commitment drive us forward.

We are proud to create products for Parents.

Enjoy reading!
